THE MOST  
ATTRACTIVE WAY  
TO COMBINE WORK  
WITH LIFE

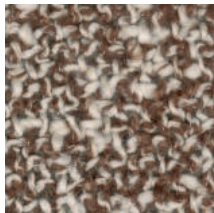

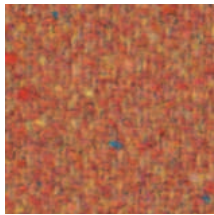

# Make the most of new potential – with business “couching”.

Companies are increasingly counting on coaches for New Work and agile working. We reckon you should opt for couches to help your business progress too! You see, if your goal is to turn the office into the new hub for communication and collaboration, then a comfortable lounge area's just the right platform. Whether it's a quick coffee or more of an extended meeting – conversations are even more comfortable here.

With our **high-end lounge range NET.WORK.PLACE Wave**, you can design communication areas that allow more interaction and enhance any office setting.

**Create comfort zones and favourite spots, and transform functional areas into emotional spaces.**

# MORE EXECUTIVE LOUNGE THAN WAITING ROOM

This office furniture enables you to create a welcoming corporate culture – after all, first impressions count. Saying “Nice of you to come!” or offering a personal greeting not only expresses respect, but also sets people at ease.

Comfortable **NET.WORK.PLACE Wave elements in the reception area** invite visitors to sit down – maybe even encouraging them to start chatting, or simply chill out and wait.

**WHAT ARE YOUR REQUIREMENTS IN TERMS OF FUNCTION?  
SEATING FOR HOW MANY PEOPLE?**

Thanks to its modular format, NET.WORK.PLACE Wave can be configured in a variety of layouts to optimise space. The system enjoys a consistent aesthetic – from stool to armchair to bench. Elegant and absolutely appealing!

# CONFERENCING IN COMFORT

This system allows you to transform a basic meeting room into a comfort zone for everyone: a round table, various armchairs with a selection of backrest heights, a matching sofa, plenty of colour and even more fabric qualities – plus many more individual design possibilities.

After all, a relaxed posture is at the root of a calm mind and productive dialogue.

Studies show the clear correlation between wellbeing and productivity: Happy employees are more pragmatic, more cooperative, more helpful, friendlier and are absent less frequently.

### THE FABRIC OF FANTASY.

As well as classic, semi-transparent curtain fabric, you can also pick from our range of furniture fabrics for your curtains.

## A VIDEOCONFERENCE WITH A CINEMA FEEL

A round table implies hierarchy and freedom of choice. And it's true: sitting around a table for a discussion is a fundamental human need. Thank goodness this feeling is transferable to video meetings! NET.WORK.PLACE Wave provides the basis for this.

Arrange our soft seating system in a simple circular configuration and screen it off as a private area. We offer curtain fabrics with varying transparency and acoustic properties.

“The bench is especially comfortable due to its cushioned upholstery! The other thing I like about it is that it’s easy to set up and dismantle thanks to quick-release connections. The cushions and upholstery fabrics are also easy to replace as no adhesives are used in manufacture. The foam is 40% recycled and the powder coating on the frames is solvent-free.”

*Johannes Brennig, sustainability expert at König + Neurath*

**“The form and drape ensure that not only do the armchairs look very elegant and comfortable, they actually are. Especially the high-back chairs, which are available with a selection of starbases, will soon become everyone’s favourite place to sit in the lobby.”**

*Stefan Nebel,
