METRA

**THE CONCEPT**  
*OF VERSATILITY*

---

## The METRA workstation programme unites proven functionality with timeless design.

METRA offers all the benefits of a modern workstation system with the added ergonomic value of individual height adjustment, which is motorised for your comfort.

Its most distinctive feature is the classic double-tube C-frame, which is ideal for linked configurations, or alternatively it makes an exceptionally strong and sturdy individual workstation.

Its functional diversity creates the perfect conditions for individual needs: well-planned electrics both horizontally and vertically, a range of extension options or practical accessories: METRA brings you versatility as well as individuality.

But that's not all. METRA is also future-ready with its sliding top, cable tray and adapter cut-outs to extend on the third level. All this comes as standard.

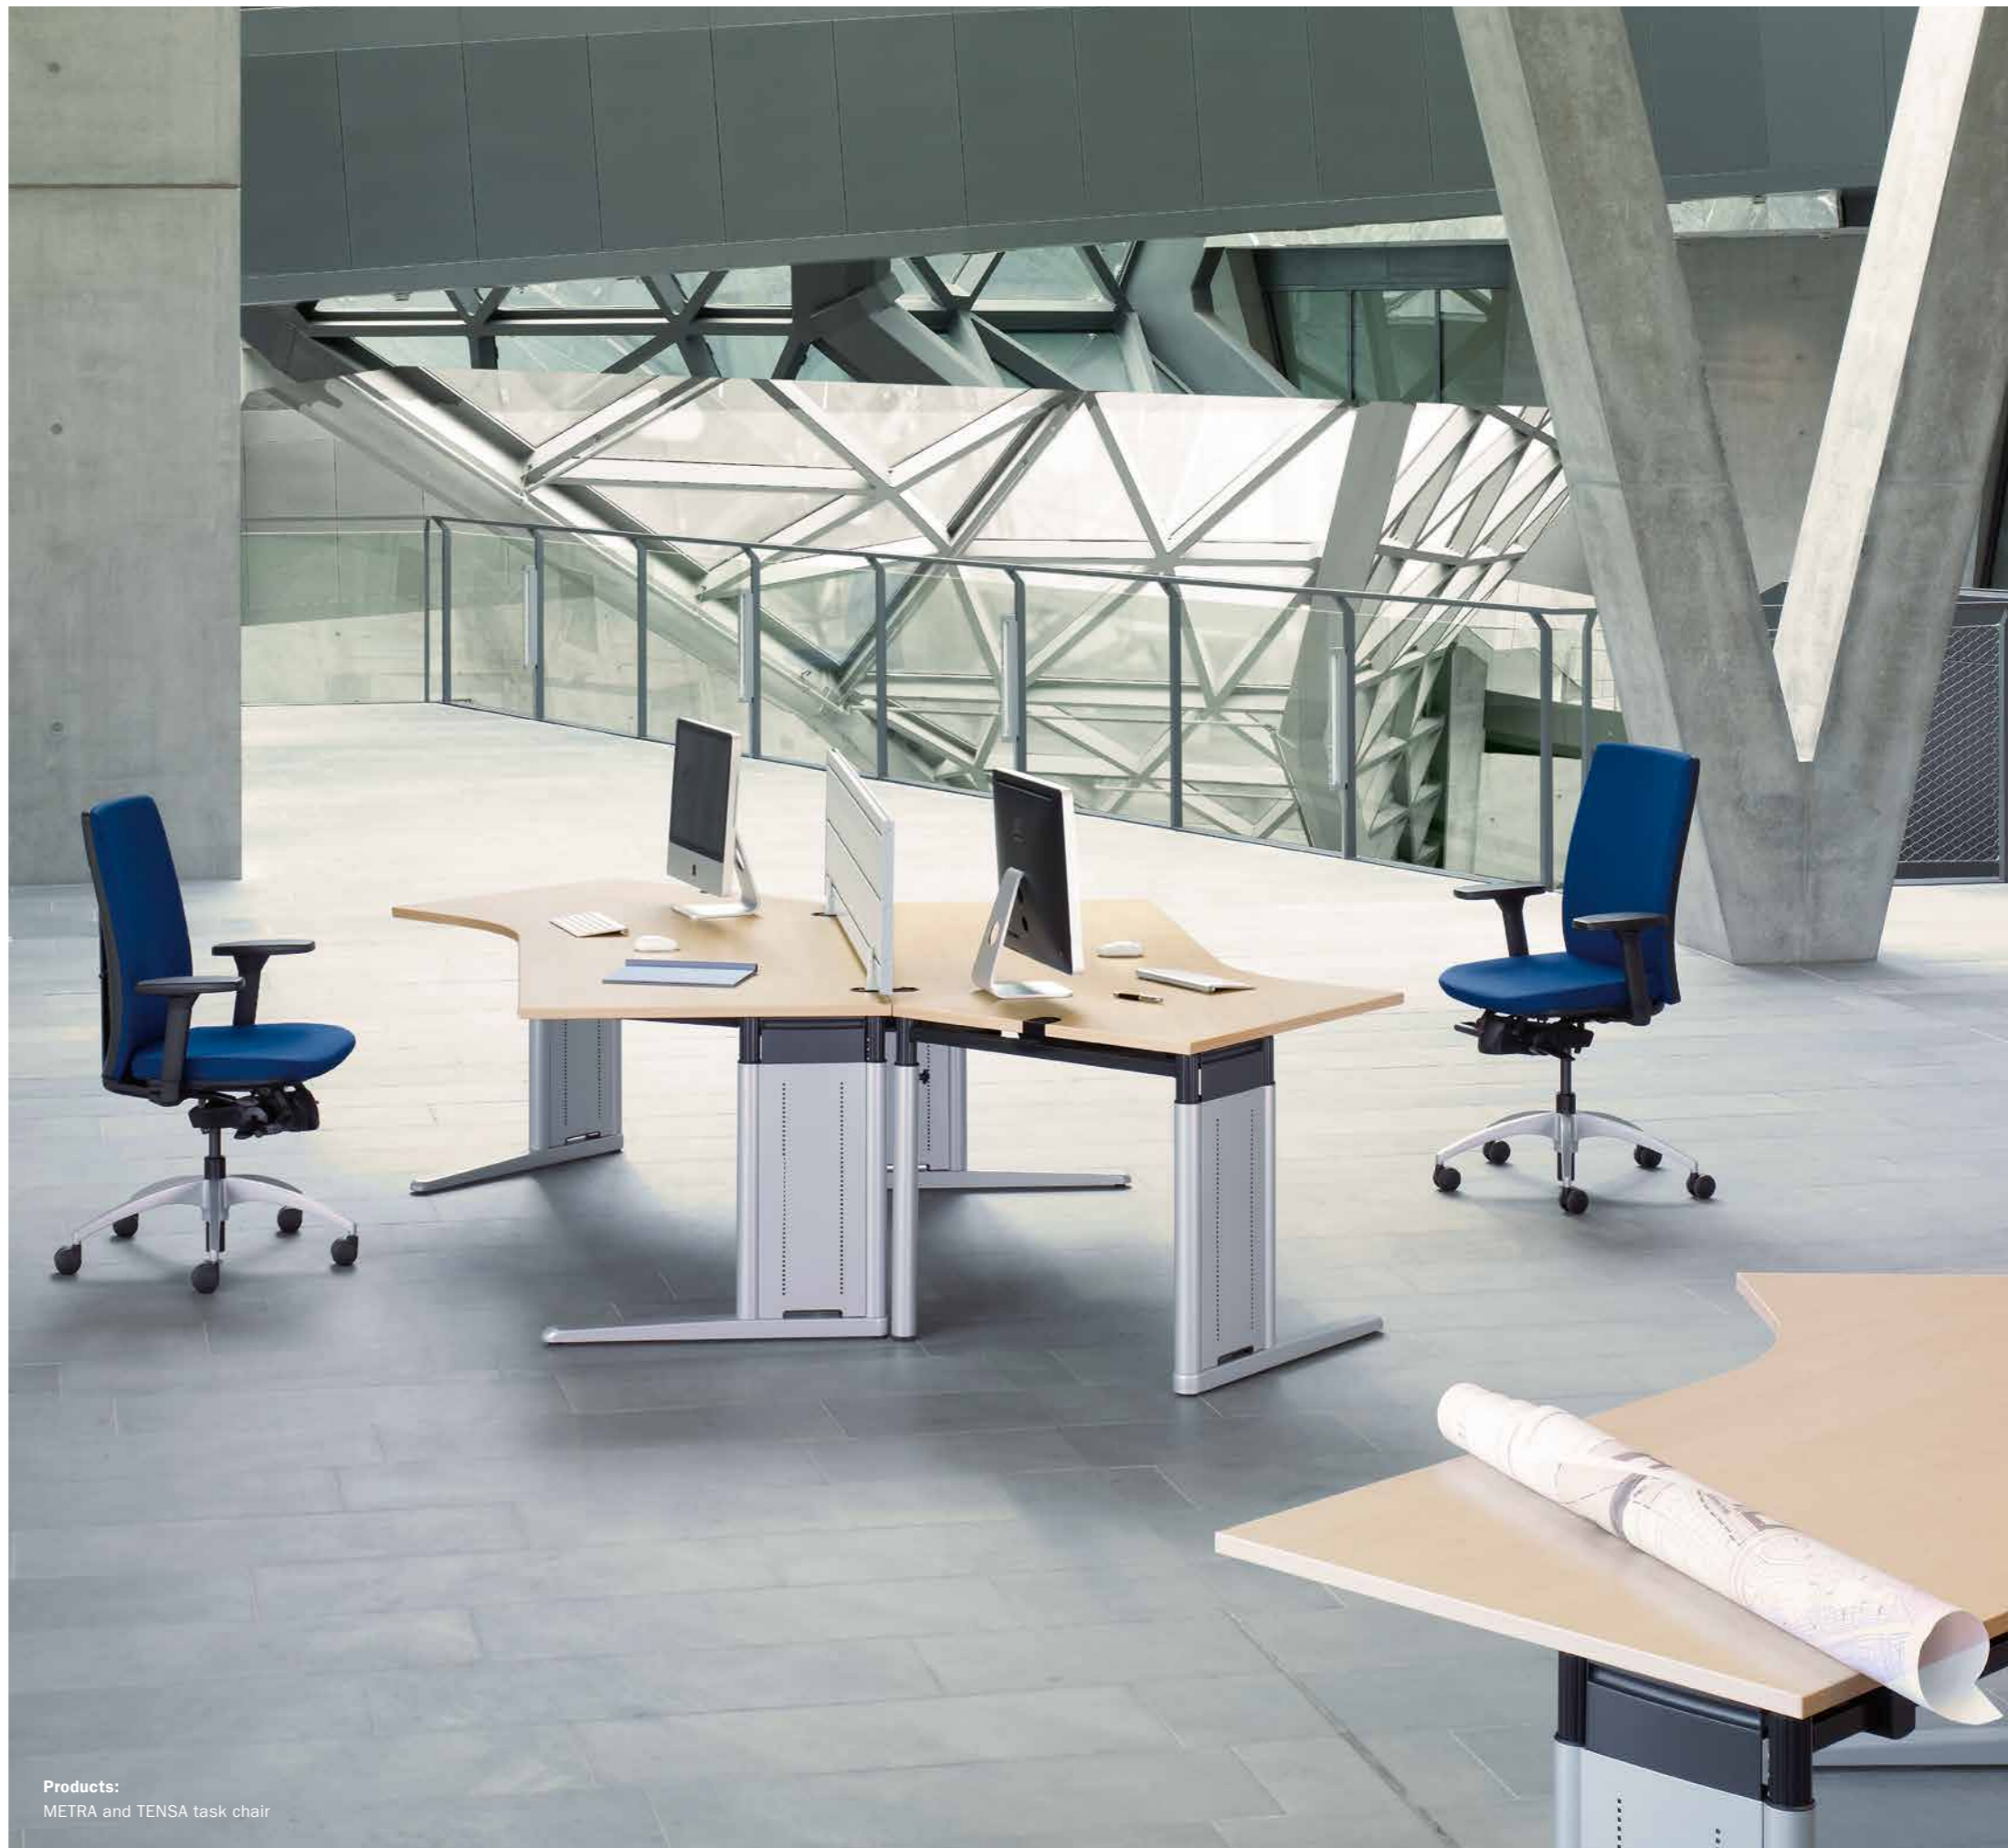

# INTELLIGENT AND *INDIVIDUAL*

Side extensions make more space for documents or can be used as a meeting table.

THE SITTING WORKSTATION CONVERTS TO A STANDING WORKSTATION AT THE TOUCH OF A BUTTON. DYNAMICALLY CHANGING YOUR POSTURE WHILE WORKING GUARANTEES LASTING RELIEF FOR YOUR SPINE AND DISCS.
