

NET.WORK.PLACE Wave

# VARIABILITY AND COSINESS IN HARMONY

**NET.WORK.PLACE Wave represents the ideal symbiosis of design, function, and sustainability.**

Its modular construction, diverse fabric qualities, wide range of color options, and easy assembly allow for individual and stylish interior design.

Create communication areas for more interaction, craft new favorite spots, and transform functional areas into emotional spaces.

## ■ VARIABLE MODULAR CONCEPT

The modularity of the lounge system allows for flexible adaptation of room design to the specific environment and enables customized zoning of the space.

## ■ SUSTAINABILITY IN DETAIL

Certified raw materials and recycled materials such as the innovative moulded foam of 40% recycled material, enhances the longevity of the furniture and supports its reintroduction into the material cycle.

## ■ INNOVATIVE FEATURE

Innovative curtain solutions significantly improve room acoustics, reduce disruptive noises, and provide necessary privacy protection.

## ■ MULTIPLE USE CASES

NET.WORK.PLACE Wave offers a wide range of applications from meeting areas to co-working spaces and hotel lobbies. It establishes inviting working environments where even waiting feels like a refreshing break.

## ■ FABULOUS FABRIC AND COLOR SELECTION

A broad variety of colors and textures provides the opportunity to set individual colour accents and harmonious combinations. This transforms the office to an oasis of well-being, that invites you to linger.

## ■ ORGANIC DESIGN APPROACH

The organic design allows for seamless integration into any work environment, creating a timeless, aesthetically pleasing appearance with a cozy atmosphere.

## ■ PREMIUM QUALITY CONSTRUCTION

Produced in Karben, NET.WORK.PLACE Wave showcases superior craftsmanship "Made in Germany" and represents the highest standards of quality and durability.
