Otter Tech
129 rue Servient
69003 Lyon - FRANCE

Dear Recruiter / Manager,

I am writing this to recommend Cosmo Remy for a developer position. As the founder of Otter Tech, I had the pleasure of working with Cosmo for over a year, during which he consistently demonstrated his strong interest for programming real time apps.

Cosmo is autonomous and reliable, always willing to take on new challenges and learn new technologies. He is a quick learner which is a huge help on innovating projects.

Throughout his time at Otter Tech, Cosmo has demonstrated a high level of technical expertise, and participated to developing multiple successful projects. He is always looking for ways to improve his skills and is constantly seeking out new learning opportunities.

I have no doubt that Cosmo will be an asset to any organization that is looking for a skilled and dedicated developer. I highly recommend him for any opportunities in this field and would be happy to provide further information or references upon request.

Sincerely,

Alex Frêne
