INEO INSTALLATION SYSTEM

Urinal flush plate
Front plate with infrared sensor
INEO E-AU110
H909110 000 000 1

TECHNICAL DATA

Order no.	H909110 000 000 1
matching for	Installation element for urinal without integrated control INEOLINK, order no. H940101, H940103
Dimensions	126 x 162 x 17 mm
Specification	Front operated, actuation force below 25 N. For concealed urinal flushing. Mains version 230/6V. For cartridge valve technology. With IR sensor and IR distance detection. Sensor range approx. 0.5 m. With magnetic valve, valve is closed during current interruption. Minimum distance to the opposite wall 0.9 m. Basic parameters such as user recognition, main flush time and dynamic flush can be adjusted.
Quality material	Plastic
Weight	0,6 kg
Mounting acc. incl.	Support frame Fastening set Filter screen Power supply and connector IP64. Special wrench for disassembly.
Otherwise	Not suitable for urinals with lid.
Colours	000 – White
