

FURRION

FURRION eROVE® ELECTRIC COOLER

Furrion eRove is an iceless portable electric cooler that's perfect for camping, boating and all off-grid travels. The eRove electric cooler offers best-in-class cooling performance and a large storage capacity, so you can carry everything you need.

KEEP IT COOL NO MATTER WHERE YOU ARE

Energy-saving modes

Easily switch between modes: beverage mode, freezer mode, eco-mode and smart mode

Convenient charging station

USB ports keep your devices fully charged when using the ePod battery while on the go

Freezing capability

Capable of freezing to -22°C and keeping cooler contents chilled for up to 5 days

Flexible power options

With flexible power options, you can easily plug in and charge the cooler with a 12V DC or 120V AC outlet. For longer trips, pair the cooler with an ePod battery and 100W folding solar panel
