

AIR RIDE™

PIN BOX

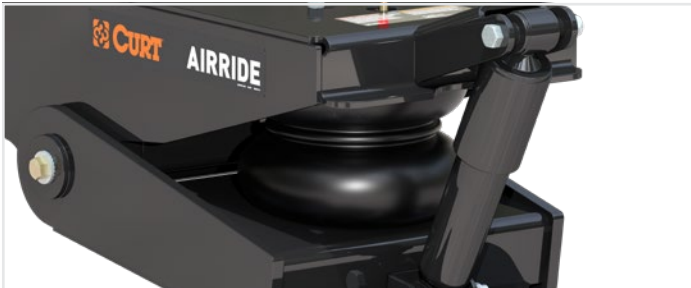

A NEW LEVEL OF COMFORT

Nobody likes a bumpy, rocky ride. The CURT® Air Ride™ pin box allows you to tow and ride comfortably with its shock absorption technology that keeps you calm, collected and cushioned.

Trust the towing experts.

INNOVATIVE TECHNOLOGY

Improves ride

With an internal air bag and built-in strut that absorbs road shock and vibration, the Air Ride reduces chucking, jarring, and bouncing, providing a smooth ride that improves handling and limits strain on both the truck and the trailer

Built to last

Constructed with steel and a black powder coat finish that protects against rust, the Air Ride is extremely durable to ensure peaceful towing day after day

Cutting-edge system

This pin box is uniquely constructed with a built-in shock that protects the air bag from destruction by recoiling the pin box, along with a scissor-like motion that allows it to compress, offsetting bounce and providing cushion

Additional Features

- Reduces chucking, bouncing and jarring with an internal air bag and built-in strut that absorbs road shock and vibration
- Bolt-on installation with no assembly required
- Steel construction and black powder coat finish that protect against rust
- Made in the USA

Part #	Capacity
