

FLEX AIR®

PIN BOX

DISCOVER COMFORTABLE TOWING

Get ready to experience a comfortable ride like no other! Our CURT® Flex Air® 5th wheel pin box is designed to regulate and reduce movement during towing, giving you a relaxed feel as you hit the road with your trailer or RV.

Trust the towing experts.

ENGINEERED TO ENHANCE

Improves ride

The Flex Air 5th wheel pin box combines our time-tested Air Ride technology with our Rota-Flex pivoting head to significantly reduce fore to aft movement and vertical tug-of-war between a 5th wheel RV and tow vehicle

Built to last

Constructed with steel and a black powder coat finish that protects against rust, this pin box is extremely durable to ensure peaceful towing day after day

Innovative structure

This pin box contains an internal air bag that moves in a scissor-like motion to absorb vibrations, a rubberized compound to soften jarring movement, and an oil shock absorber to handle rebound action, dampen kickback and control chucking

Additional Features

- Reduces chucking and absorbs road shock
- Long jaw with pivoting head
- Features Air Ride™ technology
- Bolt-on installation with no assembly required
- Constructed with steel and a black powder coat finish that protects against rust
- Made in the USA
