Tinted Shaded Banded

How to Correctly Measure a Windshield

Important:

All measurements for 1-piece windshields or 2-piece windshields (both passenger and driver side) are made from edge of glass to edge of glass - around the curve and through the center point of the windshield.

Measurements:

Height in Inches

Width in Inches

Driver Side

Passenger Side

One Piece

Flat

Curved

Name of Insured Customer
(for your reference)
