Performance Guide

What is a Relaxed Performance?

At Lincoln Center, we believe the arts are for all.

Relaxed Performances are open to everyone, and especially welcoming to people with autism, sensory or communication disabilities, or learning disabilities.

The performance itself stays the same. We make small changes to the theater's social and sensory environment and expectations, so the space feels more comfortable and flexible.

Relaxed Performances can also be helpful for neurodivergent people, families with young children, and anyone who finds traditional theater rules do not work for their needs.

At this performance:

- You can **enter and leave** the theater during the show, if you need to.
- You can **move, make sound, and respond** to the performance in your own way.
- We ask everyone to help create a **no “shushing” zone**.
- The **house lights are kept on at a low level** so the space is never completely dark.

- If there are **bright lights, loud sounds, or surprising sensory moments**, we describe them in this visual guide. Please keep reading below.
- We share key reminders in the pre-show announcement.
- A **Chill Out Space with sensory support materials** is available if you need a break—you can return when you're ready.
- **Noise-reducing headphones** and **fidgets** will be available to borrow.
- Staff are trained in inclusive and accessible practice.
