MODEL COMPARISON

PREVIOUS VS. UPDATED DESIGN

PREVIOUS MODEL

UPDATED VERSION

In our ongoing commitment to improving product quality and performance in accordance with industry standards, we have implemented a minor update to the metal coating finish.

WHAT HAS CHANGED?

1. The patch panels now feature an updated metal finish.

We want to assure you that these updates do not affect the products.

During this transition period, you may continue to receive shipments of the previous product model until existing distributor stock is depleted. Both the old and new models meet our strict quality standards.

If you have any questions or require additional information, please don't hesitate to contact us. We appreciate your continued support and look forward to providing you with our improved product.
