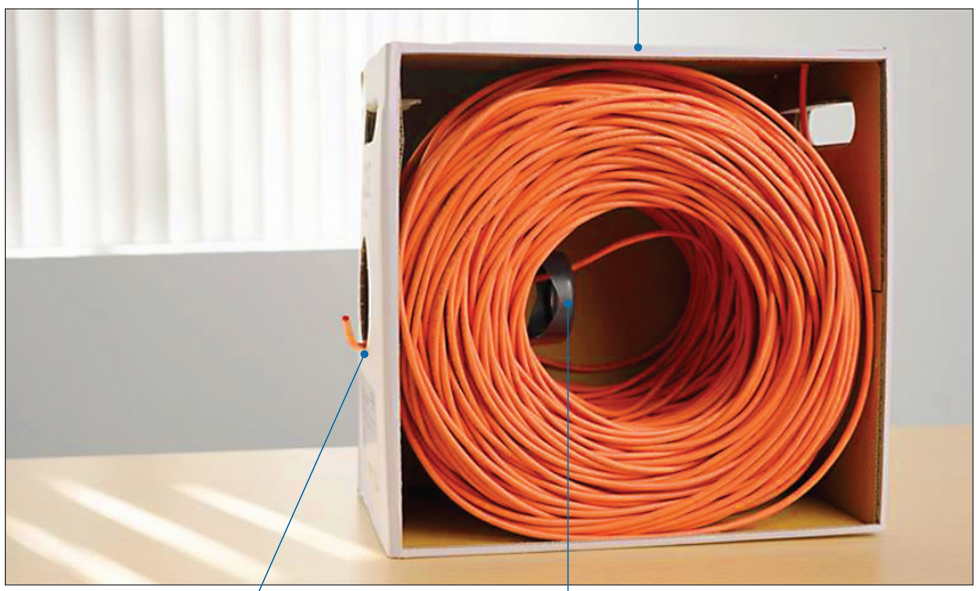
C2G **BULK** Category Cable

With Innovative Next-Generation Packaging

C2G's TAA-Compliant Bulk Category Cable is an excellent choice for custom length horizontal network cable runs. Not only is this high-quality cable in compliance with 568.2-D standards, it's easy to work with, thanks to an innovative package design.

- Innovative package design reduces plastic and cardboard waste
- Smooth cable-pulling experience
- Certified quality: Meets and exceeds ANSI/TIA-568.2D standards for enhanced compatibility and interoperability
- Available in Cat5e, Cat6 or Cat6a, packaged in 1000 ft (304.8m) spools, in a range of colors, jacket ratings and cable shields
- Backed by a lifetime warranty and world-class support from C2G



Next-Generation Cable Packaging

Innovative design saves space and creates less waste

The new sustainable slim packaging reduces cardboard waste. The inner spool has a lightweight design that uses less plastic. What does it mean for you? A smaller package means you can ship and store more cable in the same amount of space as before. Because more boxes fit onto each pallet, you can potentially save on shipping costs. And of course, less cardboard and plastic means there's less to recycle.

Tangle-free cable-pulling experience

Because of its innovative center spool design, you're assured of a smooth, hassle-free cable pulling experience every time. And that means your installation team is more productive, and you finish the job sooner.

Slimmer Packaging

To save valuable space, C2G Bulk ethernet cable is delivered in packaging that is slimmer than most conventional packaging.
