Firmware
Release Notes

XAP-1610

Release Firmware Version 8.5.0 - Recommended Update (Must update to FW 8.3.1 or newer before applying this update)

Note: *It is NOT recommended to update the firmware wirelessly.*

Note: *As part of Luxul's ongoing improvements to product security, all new firmware updates will support cryptographic signatures. Implementing firmware signatures will enable Luxul to guarantee authenticity of the firmware update image.*

Firmware versions on the XAP-1610 older than 8.3.1 must be updated to 8.3.1 before updating to the current release version.

Enhancements:

- Maintenance release with minor updates to the UI and other features.
- Improvements to the functionality of remote cloud connections.

Known Limitations:

- *When using Safari on macOS, in some cases when changing the admin password you are not redirected to a new login screen.* **Solution:** *Close the current tab/browser, open a new tab/browser session and browse to the new IP address of the device. This fixes the issue and will allow you to move forward.*
- *Additional SSID character support is limited to the Quick Setup page and the wireless profiles pages will be updated in a future release.*

Release Firmware Version 8.3.1

Note: *It is NOT recommended to update the firmware wirelessly.*

Note: *As part of Luxul's ongoing improvements to product security, all new firmware updates will support cryptographic signatures. Implementing firmware signatures will enable Luxul to guarantee authenticity of the firmware update image.*

Enhancements:

- Minor UI improvements and fixes
- Support for requiring signed firmware on future firmware updates

Known Limitations:

- When using Safari on macOS, in some cases when changing the admin password you are not redirected to a new login screen.
  Solution: *Close the current tab/browser, open a new tab/browser session and browse to the new IP address of the device. This fixes the issue and will allow you to move forward.*
