Location	Cape Town (Observatory), Black River Park
Job Type	Junior Web Developer (permanent)

Your role:

- Initially, you'll programme website designs into HTML / CSS / JavaScript (typically using Foundation and Craft CMS) to get you started but;
- You will quickly grow towards backend development, specifically with regards to database design and programming (PHP / MySQL) by utilising a variety of MVC frameworks

Key Performance Areas:

- Web (HTML, CSS) Programming: Creation of HTML, CSS of a web interface design
- Development
- A strong desire to learn and grow back-end development skills (specifically in PHP / MySQL)
- Development / maintenance using PHP / MySQL

Personal Attributes:

- Self-motivated
- Enthusiastic and passionate about development
- Proactive
- Excellent verbal/written communication skills
- High level of attention to detail

Minimum Qualifications and Experience:

Essential:

- Matric
- Pure Maths as subject in Matric
- Relevant diploma or tertiary qualification (completed)

Preferred:

- Experience in system and web development
- Experience in developing in HTML/CSS/PHP/MySQL

We've got:

- An extremely smart and skilled team of web professionals that will help you grow your skills and capabilities
- Bottomless world class coffee
- After work drinks on a Friday

We don't:

- Manage people with the "whip"
- Run out of coffee
- Judge you if you need to stay at home for a day because your geyser burst and the plumber hasn't arrived and isn't returning your calls
- Have a dress code
