It's About Impact, Not Intent!

Hi, I'm Paulie!

ORGANIZATIONAL BEHAVIOR SCIENTIST

My work has taken me all over the world, reaching across education, behavior analysis, human service organizations, and even professional sports. As a Wall Street Journal and USA Today best-selling author of ten books, I'm proud that my impact resonates so widely. Each of my books offers fresh perspectives and practical solutions to today's challenges, all grounded in Applied Behavior Analysis. My mission, disseminating behavior analysis to help individuals and organizations better themselves and others, drives my commitment to this work. With a vision of a better world through behavior analysis, I believe in always moving forward, evolving positively, and ensuring our approaches are effective. My goal is to challenge conventional thinking in education as it applies to achieving critical outcomes. Having witnessed the transformative power of behavioral science, I am dedicated to being a voice for positive change and a guiding force in educational renewal.

SPEAKING TOPICS

- ✓ **"Positional Authority Ain't Leadership"** is grounded in the science of human behavior, focusing on the impact of actions over mere intent in education.
- ✓ **"Unlock Behavior - Unleash Potential"** empowers individuals to overcome personal and professional challenges through behavioral science, highlighting how understanding and applying key principles can drive transformative change.
- ✓ **"Classroom Leadership"** emphasizes that successful classrooms need more than just management; they require true leadership, empowering teachers to create environments where both students and educators can excel.

Testimonials

“

Dr Paulie knows his content and how to deliver it. He put the crowd at ease with his rich, knowledge base, quick wit, and assurances of evidence- based practices. Dr Paulie left us all believing that together we can improve adult behavior and student behavior that prepares us all to be more available for learning.

**Dr. Wanda Gadsen,
District Leader - SC**

“

Dr. Gavoni has a gift for making behavior science accessible to a broad audience. His keynote captivated the hearts and minds of teachers, educational assistants, related service providers, parents, school administrators, and state leaders. His presentation was inspirational, accessible, and actionable.

**Joshua Hoppe,
State Leader - HI**

The Training

Designed by Anika Costa, a doctoral-level instructional designer and master trainer and co-facilitated by me, our training programs are expertly crafted to maximize engagement and drive practical, results-oriented outcomes. Leveraging the science of human behavior, each session equips participants with the tools classroom, school, or district leaders need to achieve measurable results. Our focus on actionable insights and real-world applications ensures that every participant can effectively impact their educational environment.

Unlock Behavior – Unleash Potential!

WHO I WORK WITH

I collaborate with school, district, and state educational leaders.

WHAT YOU CAN EXPECT

My work focuses on applying the science of human behavior to enhance performance, leadership, and the overall culture within schools and districts. By partnering with educational leaders who are committed to positive change, I help them implement practical, evidence-based strategies in behavior analysis and leadership development. This collaborative approach drives lasting results, fostering environments that not only bring out the best in educators but also ensure they are equipped to bring out the best in the students they serve. Together, we achieve measurable improvements in student engagement and reductions in disciplinary issues, creating a more positive and productive learning environment for all.
