This Model Uses

230 kWh/year

Energy use (kWh/year) range of all similar models

Uses Least

Energy

250

Uses Most

Energy

260

kWh/year (kilowatt-hours per year) is a measure of energy (electricity) use. Your utility company uses it to compute your bill. Only models with less than 5.5 cubic feet and the above features are used in this scale.

Refrigerators using more energy cost more to operate.

This model's estimated yearly operating cost is:

\$20

Based on a 1995 U.S. Government national average cost of 8.67 ¢ kWh for electricity. Your actual operating cost will vary depending on your local utility rates and your use of the product.
