LOQR

LOQR

AI-Powered Journey-as-a-Service provider for Financial Institutions

Our expertise in AI, security, and compliance, combined with a solid banking business experience, allows you to unlock your digital potential and get pre-built journeys with one single integration. Increase your business while reducing operational costs.

Easy integration and ready to use journeys

Eliminate integration hurdles and reduce risks. Everything your business needs in one platform.

Compliance-Proof Platform

Secure that your organization complies with local and global regulations, like AML, KYB/KYC and offers innovative, reliable, and fully compliant journeys.

Omnichannel Experience

Ensure that your customers have a seamless and unified end-to-end experience – online and offline – at every touchpoint.
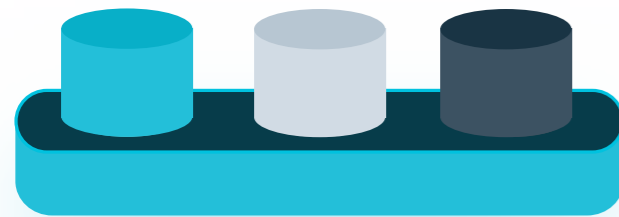

AI-Powered Technology

Increase accuracy and security with AI. Data mining combined with AI allows your organization to benefit from continuous solutions improvements and added ROI.

Pre-built Journeys

Enhance your value proposition while using our journey-as-a-service platform to deliver journeys such as online account opening, customer data update, and online access recovery.

A Powerful
Journey-as-a-Service Engine

KYC/KYB
Capture your customer's data and validate it to comply with KYC/KYB and AML regulations.

Identity Verification
Verify your customer's identity (ID) through video biometrics, including face match, liveness detection and video interview, with or without an operator, according to the applicable risk matrix and regulations.

E-Sign
Select one of the available digital signature types according to your risk level matrix: advanced signature, advanced certificate signature or qualified certificate signature.

Unlock a set
of use cases

Buy Now, Pay Later
Online Loans for Goods and Services

It's All About JaaS

Unlock your digital banking potential through our pre-approved and proven journeys and empower your customers' digital lives. Get to increase your business while reducing costs and operational time by choosing our journey-as-a-service platform.

Online Account Opening
Build a secure, fast, and compliant customer-centric onboarding experience through a smooth omnichannel journey.

Customer Data Update
Keep your customer databases up to date to comply with the applicable regulation avoiding fines.

Online Access Recovery
Provide your customer with a seamless experience when they need to recover their credentials and eliminate the unnecessary burden from your call center/branch.

Why LOQR?   Why LOQR?   Why LOQR?   Why LOQR

Expertise on banks
We understand the challenges of this heavily regulated industry like no one else. Banks need a complete and easy to integrate solution, not a set of disconnected APIs that are difficult and risky to implement.

Ready-to-use journeys
Deliver compliant and ready-to-use journeys to simplify your operation and improve customer experience. Increased conversion rate and reduce costs by quickly creating the journeys that align with your business needs.

Quick time to market
Start measuring deployment in weeks instead of months and remain competitive and align with the next generation of digital customers.
