Environmental Protection

This symbol is known as the 'Crossed-out Wheelie Bin Symbol'. When this symbol is marked on a product or battery, it means that it should not be disposed of with your general household waste. Some chemicals contained within electrical/electronic products or batteries can be harmful to health and the environment. Only dispose of electrical/electronic/battery items in separate collection schemes, which cater for the recovery and recycling of materials contained within. Your co-operation is vital to ensure the success of these schemes and for the protection of the environment.

App Set Up & Commissioning

Installation is **not** completed until the Solar Power Diverter has been set up for Smart App use.

Step 1

- Once the Solar has been fitted, tested and powered on; please ensure you are within 2 meter's (Bluetooth range) of the Solar Power Diverter.
- Then select ' Set up a Device' On your Sync Energy App Menu.
- You will need to use the Unique Device Details to start set up of the Diverter.

Step 2

- Once you have entered the Unique Device Details, follow the on app prompts for load management and network set up.

Step 3

- You have now completed the installation of your Solar Power Diverter!
- Please finish off set up by handing over to the customer

Customer Handover

Follow the in-app instructions for sharing and transferring the Solar Power Diverter with the Customer / End User.

DO NOT dispose of the User Guide Paperwork.

If the customer is present (preferred)

Ask the customer to download the Sync Energy App and create an account. You can therefore transfer the project to them.

If the customer is not present

Establish contact with the customer and ask for their Sync Energy account email address. Follow the same steps as 'if the customer is present', to transfer the account remotely.

If you are unable to contact the customer

Please either hand over/post the Home User Quick Start Guide OR the Unique Device Details can also be found on a unique ID card inside the Diverter for Home Users to set up their device.
