

## AURALINE GLASS PANEL HEATER

### FEATURES

- SMART WI-FI CONNECTIVITY WITH IN-BUILT ENERGY USAGE AND COST MONITORING:** Allowing you to see your heating energy usage, showing you exactly how much energy you're using. Set timers and schedules, as well as energy and cost reminders
- WITH THE MASTERPLUG SMARTENERGY APP, TRACK YOUR ENERGY COSTS IN REAL TIME:** Compatible with Amazon Alexa and Hey Google. Control by the LED display, voice commands or App. The discreet controls with power indicator allow for easy control
- ADJUSTABLE TEMPERATURE OPTION AND TWO POWER MODES:** You can chose your preferred option between low (1000W), high (2000W) power modes and adjust the thermostat from 5°C – 40°C
- SAFE TO USE AROUND CHILDREN AND PETS:** Ensures child safety with a child-lock function and anti-tipping switch-which trips the heater if activated. Built-in overheating protection for a safe heating solution
- ELEGANT, SILENT AND FUNCTIONAL SMART HEATER:** design with a glass panel, and silent in operation. X-shaped aluminum heating element for rapid heating
