

Ceramic Nativity Artists

In the city of Arequipa is a small family owned ceramic workshop specializing in original ethnic nativities. Depending on the time of year, it employs 5 to 15 artists most of whom are women. Artists are able to work flexible hours to allow mothers to watch their children after school.

With a passion for promoting Peruvian culture, the artists capture the personality of several cultural groups in their Nativities. To honor indigenous North American cultures their collection also includes our popular polar Nativity. A perfect gift that brings happiness to the recipient and to the artists who make them.
