Quality promise

The following applies to our cutlery series:

Most of our cutlery series are made of highly polished 18/10 chrome-nickel stainless steel. For you, this means: The cutlery is dishwasher safe, rustproof and dimensionally stable.

The weight of the individual cutlery pieces is perfectly balanced and the edges are also carefully rounded. As a result, the cutlery lies well and securely in the hand.

Our monobloc menu knives are forged from one piece of steel. This makes the knife stable and robust and ensures a smooth transition between the handle and the blade.

In the hollow handle knives, the blade is cemented into the knife handle. The result: high quality blade steel combines with a fine, lightweight 18/10 hollow handle, making the knife perfectly balanced. A large volume knife will not tip easily off the edge of the plate when serving.

Decors and surfaces are precision crafted. This results in an aesthetic, uniform appearance.

Care instructions:

Rinsing changes the visual structure of the POM handle. This makes it more distinctive, which is characteristic of the material. POM is indestructible, even when used in the dishwasher. To get back the original patina, we recommend you to treat the handles with a vegetable oil from time to time.

VEGA

Cutlery series Turin

Modern cutlery made of stainless steel with black handles made of POM. Due to the narrow design it fits well in the hand and is still eye-catching and with that certain something! Material: chrome-nickel stainless steel 18/10! Handle made of POM. Material thickness 5.5 mm. Suitable for dishwashers! VEGA own design - only available from us!

CUTLERY

ROBUST & Long-lasting

VEGA

Pizza/Steak cutlery Picanha

The famous TRAMONTINA pizza or steak knives and forks convince with their top quality all along the line: They fit perfectly in the hand and are manufactured in high quality for maximum durability. The particularly hard cutting blade as well as the handle rivets are made of stainless steel. The handles are made of polywood and thus of several layers of pine wood impregnated with resin and then pressed, cut into shape and polished. Polywood is characterized mainly by its high stability, durability and dishwasher resistance. The handles look "like new" even after years.

Material: chrome-nickel stainless steel 18/10! Dishwasher safe!
