**Crystal glass series Melissa**

The special: Our crystal glass series was developed with sommeliers. Thanks to the long body, the fragrance can develop optimally. The drawn stem speaks for special quality. The flat base ensures a secure stand and faster drying in the dishwasher. In the case of the bulbous red wine glass, the wide goblet ensures optimal development of the aromas, which are further concentrated at the narrow end of the glass. The glasses are very robust and stable and have a long-lasting transparency and perfect sound.

Material: crystal glass. With and without filling line! Dishwasher safe! 5-year availability guarantee!

## Crystal glass

Crystal glass differs from conventional glass by its particularly high transparency and brilliance. Depending on the cut, light rays are refracted thousands of times in the glass, so that crystal glass shimmers and sparkles beautifully. With their appealing appearance and fine mouth rim, stemware made of crystal glass is also perfect for tasting.

### Safety for your guests

In times of Covid-19, hygiene is extremely important in the catering industry. That is why we have something very special for you: Glasses with V-Block technology. The antimicrobial coating ensures that the growth of viruses, fungi and bacteria is stopped. The effectiveness has been tested with over 94%.

In order to be able to inform your guests about this in an uncomplicated way, information material is available for you to download from our homepage.

### V-BLOCK

Δ ŞİŞECAM TECHNOLOGY

Pasabahçe

#### Glass series Noa V-Block

Glasses with V-Block coating for a safe drinking experience. The V-Block coating ensures with its composition that viruses, fungi and bacteria on the glass are rendered harmless. The effectiveness against the Covid-19 virus has been tested at over 94%. The coating is durable despite frequent use in the dishwasher.
