■ Decorative buttons

#### Nosag suspension

Nosag springs are sometimes referred to as steel wave springs. Their spring steel wire is serpentine and known for its long durability. In addition, the Nosag spring has a high dimensional stability. Compared to other suspension systems, the Nosag suspension is extraordinarily comfortable to sit on, because the current sitting position is specifically supported here. Due to its strength and robustness, it still provides optimum support even after years without losing its function.

**Furniture series Chesterfield velvet fabric**

Here vintage look and traditional English style are combined at their best. Armchair and sofa are made of sturdy velvet fabric and with everything that makes this furniture so special: traditional button details from elaborate and careful handwork, generous seat and a rivet decoration on the front. The high comfort of the seat is mainly due to the high-quality upholstery, the materials of which are fire-retardant. Plastic glides under the wooden feet made of turned and stained beech wood make it easy to move.

Cover: 100% polyester, feet: solid beech, stained.

Color: seat fir green

## VEGA

### Furniture series Yankee

The series Yankee scores with maximum comfort, which speaks for its suitability for everyday use in restaurant or at home. The design captivates with simple shapes which combined with elaborately quilted decorative stitching becomes an eye-catcher. There is imitation leather on the inside of the seat shell, fabric on the outside. Stitching on the backrest inside. The chair frame is made of powder-coated steel. Only suitable for indoor use. Plastic glides included. Delivery is disassembled, simply screw the frame to the seat shell using the supplied fastening material.

Frame: powder-coated steel. Seat: imitation leather and fabric (100% polyester).

### Table Alvar

Table with natural tree edge made of solid 40 mm FSC® certified oak wood. Rustic and trendy appearance. Thus, knots and small cracks were deliberately left in the surface but poured with black synthetic resin for better maintenance. The surface is transparent matt lacquered. The total width of the table top is due to the tree edge between 86-90 cm on the bottom and between 80-84 cm on the top. Each table top is unique and lives from its uniqueness. The frame is made of a very sturdy black powder-coated steel tube with a cross-section of 80x80 mm. On the underside are glides made of plastic. Table is delivered disassembled. Assembly material is included. Table top is also available in special size. Color: brown

#### Furniture series Chesterfield imitation leather

Here vintage look and traditional English style are combined at their best. Armchair and sofa are made of durable imitation leather and with everything that makes this furniture so special: traditional button details from elaborate and careful handwork, generous seat and a rivet decoration on the front. The high comfort of the seat is mainly due to the high-quality upholstery, the materials of which are fire-retardant. Plastic glides under the wooden feet made of turned and stained beech wood make it easy to move.

Cover: imitation leather. Feet: solid beech, stained.

- Large seat
- High-quality upholstery

Modular system - many different  
possible combinations of the individual elements

**Furniture series Adapto**

- Modular bench system with a lot of flexibility and design scope
  - Frame made of steel in industrial look or noble, solid, brushed oak wood in tobacco stained finish
  - Seat element with backrest with very high quality quilted seams
  - Additional add-on element for height and comfort in the back area
  - Two different backrest heights possible, e.g. for leaving out windows
  - Very comfortable and high-quality upholstery elements made of robust, very easy-care imitation leather in vintage style or with velvet cover - you can find them in our online shop
  - Well combinable with many other pieces of furniture from our assortment
  - Incl. integrated adjustable glides to compensate for uneven floors and walls
  - Linking of the frames side by side by row connector (SKU 30040264)
  - Linking back to back with back connector (SKU 10093926)
  - Easy and quick assembly
  - Other materials and dimensions available on request
  - Attention: The back cushions are not covered on the back side as standard. Therefore the use free in the room is only possible by back to back connection
- Frame: steel or wood. Cover: imitation leather.

**Connecting elements Adapto**

Various interlinking of the bench system Adapto. Either connect the elements side by side using row connector (SKU 30040264) or back to back using back connector (SKU 10093926).

### Furniture series Torres

The industrial look is one of the hottest gastro trends. If you're going for vintage style in your bar, brewpub or in-location, you'll make the best choice with this series: the sturdy metal frame is deliberately not powder-coated so that the natural steel look character, with its slight traces of corrosion, is retained. Matching screws and large nuts are also seen. The table and bench tops are made of high-quality solid oak wood (stained and lacquered), are easy to clean and complete the vintage look perfectly. Can be combined with our table tops Torres ([www.lusini.com](http://www.lusini.com)). Easy assembly, comes disassembled.

Frame: steel, lacquered. Table top: FSC® certified solid oak wood.

#### Furniture series Toronto

Elegant, durable and comfortable: Furniture series Toronto convinces with design and quality. With its slanted feet and beveled table top, it will delight your guests. All furniture is made of high-quality oak wood. The footrest of the barstool is made of brushed stainless steel. On the tables, steel beams prevent the table top from warping. Another special feature: bar tables and barstools are slightly lower than conventional bar furniture. So they do not look so bulky in your ambience and make sitting down and standing up easier and more comfortable. The seat recess on the barstools and bench ensures that your guests sit ergonomically and comfortably - so they will be happy to linger longer at your bar.

Material: high quality oak wood.

Color: seat oak/natural with frame oak, oak/natural

### Separation system Diviso

If you are looking for a separation system that is as versatile as possible and can be used free-standing in the room or on the wall, this room divider is a very good choice! The basic element in natural wood look is available in several decorative colors, which form a beautiful contrast to the color-contrasting base in stainless steel look. You determine the height of the room divider by the number of add-on elements as well as the various insert plates, e.g. for plant pots. There is a continuous cable channel in the basic element, for invisible mounting of electronics - if desired. All items are delivered assembled, the individual elements can be easily plugged together.

Individually combinable!

## Table Conferencio

For the table bases, you have a choice between an open and a closed frame in powder-coated steel. The open frame has the added advantage that your guests can sit comfortably on all sides of the table. With all frames, plastic glides on the underside protect the floor. The table top is sturdy, scratch-resistant and easy to clean thanks to high-quality HPL coating. The impact-resistant ABS edges make the table top additionally resilient and stable. Mounting the table top is easy and safe - this is ensured by the holes with threaded inserts on the underside of the top. Material: powder-coated steel. Table tops high quality HPL surface. ## VEGA

### Table top Spesso

The table top Spesso convinces with its natural look and with its sophistication! The table top is made like a laminate table top. However, it has an end grain edge and a material thickness of 3.8 cm. Its textured surface and natural end faces create a visually vibrant surface character. Fixing material is included with the table bases. Suitable for indoor use only. Scratch-resistant. Impact-resistant. Abrasion-resistant. Material: HPL laminate. Material thickness 3.8 cm.

### Table top Maliana

The table tops in wood or metal look are virtually indestructible. This is ensured on the one hand by the coating: high-quality laminate, which makes the table tops robust and resistant and meets the requirements of DIN EN 438-3:2005. On the other hand, the table tops are protected by stable and impact-resistant, 2 mm thick ABS edges. So you and your guests will have something from your table tops for a long time! Mounting material is included with the table bases. Customization possible. Abrasion-resistant. Scratch-resistant. Easy to clean. Suitable for indoor use only.

Material: HPL laminate. Material thickness 2.5 cm.

#### VEGA

##### Table top Finando

Versatility and quality: These table tops inspire with their modern design and fit into any ambience with their large decor selection! They are made of pressed wood chips and sealed waterproof - so they are perfect for indoor and outdoor use. With their low material thickness of only 16 mm, they look light and delicate. Note: In strong sunlight, especially dark decors may bulge. This process is normal and the curvature will disappear as soon as the sunlight decreases. Therefore, we recommend light-colored decors for outdoor use. Our table bases, together with our allowed table top sizes, meet the requirements for stability and tilt resistance. The table top is simply screwed onto the table base. Fastening material is included with the table bases.

Easy to clean! UV and weather-resistant!

### Compact table top Lift

These table tops are absolutely weatherproof and UV-resistant. The surface is very hard and therefore insensitive to scratches. Due to the beveled edge, the 13 mm thick table tops look very thin. Can be combined with all our offered table bases. Mounting material especially for these table tops is included. Ideal for indoor and outdoor use! The rectangular size 120x68 cm and 130x80 cm is equipped with a 16 mm waterproof fiberboard. All table bases can be easily mounted on it with wood screws.

Material: high density laminate.

## Flat® technology

The annoying wobbling of indoor and outdoor tables has finally come to an end. This is made possible by the special patented Flat® technology. The hydraulically mounted floor glides adapt perfectly to any unevenness in the floor. This means that even several tables can be levelled out quickly and easily and simply lined up next to each other. Simply align the tables in the desired position.

- Hydraulically mounted floor glides
- The table base perfectly compensates for any unevenness of the floor
- Easy lining up of several tables and equalization of a uniform height

### Lounge series Amalfia

Whether for terrace, spa or wellness area: The lounge system Amalfia fulfills all wishes! Lounge element and table in attractive material mix of powder-coated aluminum and teak. Cushions made of high-quality, very weather-resistant and easy-care olefin fabric. Since the elements can be flexibly combined, you can assemble and chain your outdoor lounge as you wish. A lounge element consists of a frame, a seat cushion and two back elements with back cushions and interlinking straps. Easy assembly. The backrest can be moved. Can also be used as a single or double lounge. If desired, an additional element (back element with back cushions) can be added.

Frame: powder-coated aluminum and FSC® certified teak wood. Cushions: Olefin fabric (100% polypropylene).

Color: frame light grey, seat light grey with frame light grey

## Chair Amato

This comfortable stacking chair Amato is not only particularly attractive, but at the same time the ideal outdoor chair for compact storage on the terrace. The frame is made of easy-care and weatherproof aluminum. Aluminum in wood look on the armrests enhances the chair. For the covering of the seat a robust textile fabric was used, which is characterized by high robustness against heat and frost and is easy to clean. Stacked on top of each other, several pieces of this garden chair can also be stored in a space-saving way.

Frame: powder-coated aluminum. Seat: textile covering.

### Furniture series Alcamo

The appealing series Alcamo made of a material mix of Rope combined with powder-coated aluminum spreads a fine elegance in any outdoor area. The series consists of chairs and armchairs which can be combined with each other for dining or lounge areas. Available in a variety of trendy colors, this seating furniture attracts attention and is also weather-resistant and very easy to clean. The hard-wearing Rope wicker is a visual highlight due to its fan-shaped arrangement and guarantees a high level of seating comfort. Back cushions included for the armchairs - optional for the chairs. Delivery partially assembled - attach feet to frame using supplied assembly material.

Frame: powder-coated aluminum. Back: Rope (98% polypropylene + 2% polyester yarn).

#### Furniture series Atelio

A furniture series that inspires with its vintage look and at the same time meets all the modern demands of the catering industry - that's Atelio. The chairs and tables present themselves in shapely design and are available in trendy colors, which can also be combined very nicely. A special surface makes the tables particularly easy to clean. The furniture is made of high-quality powder-coated aluminum and is therefore very robust and resistant to wind and weather. Also indoors they fit harmoniously into any vintage or shabby chic ambience. Includes plastic glides that are gentle on the floor. Chair stackable.

Material: powder-coated aluminum.

A photograph of an outdoor dining area. In the foreground, a square table is surrounded by four modern chairs with a grey woven back and a dark seat. The table is set with four glasses, a white vase, and yellow napkins. In the background, there are more plants, including a tall grass in a dark pot and a bamboo plant. The ground is paved with grey tiles. A green speech bubble is in the upper right corner.

Off to the outdoors! Not only since the pandemic, the outdoor area is gaining more and more importance. Your guests want to make themselves comfortable outside. With cool lounge furniture and smart decoration ideas, you can create a cozy and homey atmosphere in your outdoor area.

#### Clearing trolley Aventuro

Such a clearing trolley as Aventuro convinces in design and function! With its high-quality frame made of 1.2 mm thick, matt powder-coated aluminum and shelves made of robust plastic, it is extremely stable, UV and weather-resistant and extremely easy to clean. Sturdy crossbars (included) can be inserted into its 2nd and 3rd shelves to safely transport bottles, glasses, dishes, cruets and much more. In addition, various GN containers made of different materials and a cutlery tray can also be transported with a perfect fit. This makes this serving trolley highly flexible and is the perfect support for everyone in everyday life. Frame and shelves can be individually combined in color with many of our existing chairs and tables. Aventuro is thus the best choice imaginable for your modern indoor and outdoor ambience.

Material: matt powder-coated aluminum, shelves made of plastic in wood look, cutlery tray made of polypropylene.

## VEGA

### Chair series Rimalia

A perfect combination of modern design and quality workmanship! The frame of these chairs looks like noble wood, but is made of powder-coated aluminum. This makes the chairs not only lightweight, but also sturdy and weather-resistant - making them ideal for outdoor catering. The seat and backrest are made of weatherproof plastic fabric. Practical: Due to their low weight, all models are stackable and can thus be stored in a space-saving manner. Plastic glides on the legs protect the floor.

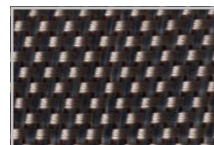

Frame: aluminum, powder-coated. Seat and backrest: plastic.

#### VEGA

##### Teakwood series Alicante

In high quality we offer chairs, bench and matching table made of plantation teak. Teak is considered to be particularly weatherproof, but after a certain time it forms a silvery patina. This is completely natural and does not represent a defect. If you would like to keep the original color of your teak furniture permanently, it is best to treat it with a teak care set 1 time a year.

Weatherproof! Chairs and tables foldable!

### Ground sleeve

Made of galvanized steel. To set up a sunshade, only the upper part (51 cm) is inserted into the lower, concreted-in part of the ground sleeve (40 cm). Thus, the ground sleeve protrudes 32 cm from the ground and sunshades trunks up to Ø 60 mm can be set up. If no sunshades are needed, the upper piece is removed and the hole is closed with a sealing cap flush with the ground. The required concrete foundation for the ground sleeve must be at least 50x50x50 cm and guarantees you a safe stand of the sunshade.

Weatherproof! Incl. closing lid! Rustproof!

- Easy to clean
- Combinable
- For indoor and outdoor

VEGA

## Illuminated bar Ampelio

Illuminated bar elements made of easy-care, UV-resistant polyethylene. The plastic bar can be positioned and arranged as desired, because the elements can be used individually or combined individually. Temperature resistant from -60°C to +80°C, thus suitable for indoor and outdoor use all year round. Waterproof and weatherproof. No assembly required, as it is made of one piece, thus immediately usable. The delivery is without illuminant. The plastic is translucent, which is why great lighting effects with different illuminants are possible. Suitable for all energy-saving bulbs and LED lamps of energy efficiency class A++ to A. Socket E27. Protection class IP55. Cable length 3 m. 2-year warranty.

Color: white translucent

### Ashtrays Arkea

Robust, uncomplicated to handle model no matter whether floor or wall ashtray, made of powder-coated steel, which fits almost invisibly into the entrance area of your hotel or restaurant due to its discreet design. The motif of a smoking cigarette makes it clear what the ashtray is for. Space for approx. 1,800 cigarette butts. Floor-standing ashtray is very stable; 3-point attachment to the floor possible. Easy emptying, can be easily removed from the post.

Wall ashtray: wall mounting at 2 points. Uncomplicated emptying, easily removable from the bracket. Both ashtrays have a capacity of 3 liters. Fastening material is not included!

Material steel, powder-coated. Weatherproof!  
Color: grey/black
