LA
LUXURIES

This ultra-luxury home opens to a low-lying living room with two-story ceilings, hanging art installations overhead, and floor-to-ceiling glass panes opening to the deck. On the flanks are a wet bar with a gas fireplace, and dining room of a century old wood slab. The chef-grade kitchen is equipped with top tier appliances.

The media room, like the living room, opens to the pool deck for a seamless indoor and outdoor experience. An L-shaped infinity swimming pool drops off the edge surrounded by luxurious lounge beds, chairs and an al-fresco dining table.

4 suites, each accompanied by ensuite bathrooms and views, are on the top level. A master suite offers a large private terrace with lounge beds and seating, all the better for taking in the view of the city below. Downstairs you will find state of the art amenities.
