

Re: Safety Statement I - Novel Coronavirus

With the abundance of reports surrounding COVID-19 or coronavirus, there is understandable concern for the health and wellbeing of our families, loved ones, and communities. We would like to share that we are monitoring updates and advice from local, state, and federal health officials and working closely with our property teams and vendors to take the appropriate precautions.

The CDC and other qualified health officials should continue to be your primary source of current information and guidance. For the most up-to-date information on the coronavirus, please visit the CDC's website at [www.cdc.gov/coronavirus](http://www.cdc.gov/coronavirus).

The best way to prevent illness is to avoid being exposed to this virus. The CDC recommends everyday preventive actions to help prevent the spread of respiratory diseases including the following:

- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, and after blowing your nose, coughing or sneezing. If soap and water are not available, use an alcohol-based sanitizer that is at least 60% alcohol.
- Avoid close contact with sick people.
- Avoid touching your eyes, nose and mouth.
- Stay home if you are sick.
- Appropriately cover your coughs and sneezes
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.

We will continue to monitor this situation closely to ensure that we follow the recommended measures that promote healthy environments for all.
