

# Care, Use & Assembly Instructions

## 20" x 16" Tournament Series Fish Cleaning Station

- 20" Cleaning stations use both "Single" and "Dual" Magma mounts. See chart below for specific applications. Other Springfield, Garelick, and Todd pedestal mounts may also be used (illustrations not shown).
- For level table adjustment, see instructions included with mounting hardware.
- **WARNING: Do Not install mounting fasteners into table without mount. As they will damage table surface.**
- Use only provided fasteners. Lost or missing fasteners can be replaced with 1/4 - 20 x 3/4" Phillips pan head screws.
- Clean with soap and water. For mold / mildew prevention or to disinfect use diluted bleach and water solution. Do not use other solvents or chemicals.
- The fish cleaning stations are UV stabilized. However when not in use we recommend that you stow the cleaning station away from harsh sunlight.
