

HIGH PRESSURE PROPANE HOSE (4 FEET)

Converts Propane Gas Grills from small disposable cylinders to larger refillable tanks. Connects unregulated high pressure LPG tank directly to the “Regulator” on the Gas Grill.

Each hose is fully assembled and 100% leak tested.

INSTALLATION INSTRUCTIONS

1. Shut off tank valve.
2. Shut off appliance valve.
3. Ensure that all connections are clean and free of debris.
4. Connect hand wheel end of hose to tank (threads are left handed) connect firmly, but do not over-tighten.
5. Connect other end of the hose to the appliance regulator (threads are right handed) tighten firmly by hand.
6. Test for leaks using a soap and water solution and a small brush. (NEVER CHECK FOR LEAKS WITH A FLAME).
7. If no leaks are found, open the tank valve.
8. Open the appliance valve.
9. Light per appliance instructions.
