💼 Professional Experience

08/2022 – present
kuwait, kuwait

KIB Digital Factory ↗
Frontend Engineer (hybrid)

- Collaborated closely with UX/UI designers to architect intuitive and visually stunning user interfaces, garnering positive user feedback and significantly enhancing customer satisfaction.
- Championed the implementation of industry best practices to elevate code quality, performance, and maintainability, ensuring the development of a robust and scalable application.
- Conducted comprehensive code reviews and delivered constructive feedback, leading to a substantial reduction in reported bug incidents and further improving code quality and maintainability.

Skills: typescript, Reactjs, redux-rtk, Design-system, React-native

02/2022 – 08/2022
Dubai, emirates

Cequens ↗
Senior Frontend Engineer

- Developed interactive user interfaces using ReactJS, effectively enhancing the overall user experience and boosting user engagement.
- Collaborated with cross-functional teams to design and implement scalable and reusable React components.
- Implemented efficient data fetching and state management techniques using Redux-Observable, resulting in an increase in application performance and responsiveness.

Skills: React.js, Redux-Observable, Ant Design, CI/CD

11/2020 – 01/2022
New Cairo, Egypt

VA Computing Egypt
SR. Frontend Engineer-hybrid

- Engineered highly efficient React components to elevate user interface and overall performance, achieving a 20% increase in page loading speed.
- Collaborated with cross-functional teams to design and develop complex web applications using React.js, ensuring seamless integration with backend systems and databases.
- Conducted rigorous code reviews and provided constructive feedback, resulting in a 30% improvement in code quality and adherence to best practices.

- Optimized existing React.js applications by identifying and resolving performance bottlenecks, resulting in a 15% reduction in server response time and enhanced overall user experience.

Skills: TypeScript, React.js, Redux.js, gRPC, Gatsby.js, Next.js, CI/CD

01/2020 – 11/2020
Giza, Egypt

Innovation-Hub
Front-end Developer

- Developed highly efficient React components to enhance user interface and improve overall performance.
- Collaborated with cross-functional teams to design and develop complex web applications using React.js, ensuring seamless integration with backend systems and databases.
- Optimized existing applications by identifying and resolving performance bottlenecks.

Skills: React.js, Redux.js, JavaScript, HTML, CSS, Sass

🎓 Education

09/2014 – 07/2020
6'October, Giza, Egypt

Culture and Science City ⧉
Bachelor of Computer Science

🧠 Skills

JavaScript	**typescript**	**Node.js** *Express.js*	**React.js** *Redux*
ReactNative	**Next.js**		
Html5 & Css3	**CSS Preprocessor** *SASS*	**Rest API's** *Ajax / Fetch Api / Axios*	**Design system**
Git version control system			**Grpc connection**
	MongoDB *Mongoose (ODM)*	**Vue.js** *Vuex.js*	**Agile**
		unit-testing *Enzyme*
