

Marwell Wellness & Spa

Facial care

The facial rituals we offer in our wellness center are a simple skincare alternative, made exclusively from natural ingredients. The basic ingredient of each product and treatment is obtained from natural herbal sources. Enjoy exceptional facial and body treatments that ensure visible results with a feeling of happiness and wellbeing.

REJUVINATING *Anti-aging treatment*

The treatment works by stimulating facial skin to produce natural collagen and by enhancing its synthesis and evening out the diameter of collagen fibres. The skin becomes visibly renewed and firmer already after the first treatment.

60 min

HYDRATING TREATMENT

Deep, intensive treatment that drastically increases skin hydration, firms, and shapes facial features. The exclusive relaxing acupressure massage enables the activation of the skin barrier, and the peel-off mask with currant extract and vitamin C provides long-lasting hydration.

60 min

SHORT FACE TREATMENT BY THE SKIN TYPE

A short facial treatment for those who want maximum effect in the shortest possible time. Let the expert hands of our therapist pamper you and recommend the very best care for your skin type. Options include the Anti-age – Botox treatment, treatment for damaged and sensitive skin, skin detoxification treatment, dry skin regeneration treatment, and treatment for cleansing skin prone to acne and inflammation.

30 min

STEAM
CLEANING

Steam has an amazing skin cleansing effect, and is also complementary to the natural skin structure which reacts to heat by opening the pores and releasing the built-up impurities. This is the ideal choice before a facial treatment.

20 min

Body treatments

Special body care treatment, designed to improve skin elasticity, detoxify your body and stimulate microcirculation, which results in better-looking skin and improved firmness, and stimulates the skin's natural revitalisation mechanisms.

MARVELLOUS BODY

A unique body regeneration and rejuvenation treatment with notes of Neroli. Complete relaxation is guaranteed with this natural skin nourishing treatment specially designed by our therapists.
75 min

BODY FIRMING

This treatment stimulates blood flow, the breakdown of fat cells and the reduction in body volume. Based on your choice and the aim of the treatment, therapists apply an activating coffee scrub and use an anti-cellulite stimulating gel with ingredients including coffee, cinnamon, and red orange, coupled with a massage using spruce, grapefruit, and orange essential oils.
45 min

TIME-OUT BACK TREATMENT

The nourishing scrub and mud followed by a deep massage is a recipe for exceptional relaxation, releasing the current tension in the back and neck muscles.
45 min

INTENSIVE FAST NOURISHING

The shea butter treatment is ideal for hydration and the regeneration of skin cells. It stimulates capillary circulation which in turn increases the oxygen supply to the tissue and improves body detoxification.
30 min

Massages

Relax and feel rejuvenated with a calming massage. You and your body deserve it. Did you know that a 60-minute massage has the same impact as 7-8 hours of sleep? Choose a massage from our offer and fill your body with energy and a renewed sense of wellbeing.
