Rovinj and Vrsar – the right choice for your perfect playground

Two lovely towns located on the shores of the Adriatic, on the western side of the Istrian peninsula, enchant visitors with their beauty, but also captivate them with their location, the nature that surrounds them and, above all, their tourist and sports offer.

Rovinj and Vrsar are picturesque Istrian destinations located in a mild Mediterranean climate with fragrant spring, colourful autumn and pleasant winter months.

The historic towns are also enhanced by a rich cultural heritage. The old town's core hides squares and cobbled streets, some of which are still vaulted by the arches of old gates, Venetian palaces and baroque churches.

Concert melodies, dance and fine arts reign in authentic spaces today, and stories from an interesting past come to life in unexpected places.

The very Casanova also lived here while medieval nobles and church bishops had their residences in this place, as well as Austrian counts who built the first summer houses in Rovinj. There is also a hospital that bears witness that even during the time of the Austro-Hungarian Monarchy, the medicinal properties and health benefits of this climate were recognized here...

Destinations for guests doing all indoor sports

Together, in an irresistible combination of Mediterranean charm and a worthy host, Rovinj and Vrsar have rounded off their sports orientation with a special offer for indoor sports. With the construction of new sports halls and courts, a necessary base has been prepared for the hospitality of athletes who demonstrate their skills within these indoor arenas.

Today, Rovinj and Vrsar open their doors wide to handball players, basketball and volleyball players, futsal players, martial arts athletes, table tennis players. Masters and devotees of badminton, darts and table football, as well as gymnasts and chess players, who will all find excellent conditions for training and improvement here too. Numerous sports that are played in arenas under a closed roof in our destinations will find their ideal place for top training opportunities as well as for competitions.

In addition to hosting and professional support for athletes, you will find all the specific requirements for playing individual indoor sports as well as the necessary individual attention to achieve and maintain top form and results outdoors here.

Rovinj

is known in the world of sport as the destination of the Vatreni – Croatia's national football team, that comes here regularly for preparations, and they set off from Rovinj to claim the world's runner-up title in 2018!

With a network of bike and trail/trekking paths, attractive climbing and underwater diving locations, Rovinj is also a meeting place of the sailing elite...

Vrsar

is a favourite outdoor destination that beckons both with its natural beauties on the coast as well as those on the mainland and in its hinterland, which is why it is often chosen as a centre of outdoor events, and as an excellent cycling destination. It regularly hosts the preparations of recognized cycling teams.

Saline Sports Hall

A true pearl in the sports infrastructure not only of Vrsar, but of the whole of Istria, is the new Saline hall. The fantastic conditions offered by this hall in Vrsar are available both to professional athletes and to teams for preparation and organization of competitions.

It is 500 metres from the city centre and the same distance from the sea or accommodation facilities. It has a spacious carpark and is accessible for people with disabilities.

The 3,200 square metre modular hall was built in 2021 and offers high-quality conditions for training and competitions. In addition to the multipurpose arena measuring 45 x 27 metres, there are also modernly equipped changing rooms, sanitary facilities, lockers and storage rooms, while the auditorium offers 450 seats for visitors.

With excellent sound systems, perfect air conditioning and equipment, including a multifunctional scoreboard and LED display as well as freight access, the Saline hall provides all the facilities for holding a variety of competitions. It can be converted from a one-part hall into a two- or three-part hall, and with additional facilities such as an infirmary, a pharmacy and a coffee bar, it provides a comfortable stay for both athletes and spectators.

Architecturally it is perfectly integrated into the natural environment, Saline hall is also unique for the breath-taking view it has from its stands over the old town of Vrsar.

Supporting infrastructure in the vicinity of the sports halls

Saline Sports Hall

Marked trail 561 (The Story of a Pirate and Stolen Treasure) runs in the immediate vicinity of the hall. The trail is slightly more than 14 km long, it can be used for running and is passable and wide. At the halfway point of the trail, there is a station with a meadow where joint training can be organized. The trail can also be shortened as there are unmarked shortcuts.

In addition to the marked trail, an excellent location for jogging is the promenade along the seafront from Vrsar to the Petalon campsite. Different circular sections can be arranged, from 2.5 to 4 km long. If there is a need for longer running sections, this is also possible through Lim. However, in order to connect the system around Rovinj, it is inevitable to travel along the Vrsar - Lim road (the exact section Kloštar - Pilj is about 2 km long).

Additional content in terms of sports infrastructure is located at the city's sports centre, which is 500 m from the hall. It has a soccer pitch with natural grass and two further soccer pitches with artificial grass for indoor soccer.

Valbruna, Gimnasium and Pionirski dom Sports Halls

The Valbruna, Gimnasium and Pionirski dom Sports Halls are located in the immediate vicinity of the sports and recreation zone, which is mainly intended for football. The infrastructure in the zone includes the city stadium, two auxiliary football pitches and a combined smaller pitch with artificial grass. The smaller pitch can be divided into two even smaller ones.

Furthermore, towards the south, in the immediate vicinity of the Lone Hotel, are three basketball courts, about a kilometre from the hall, as well as clay tennis courts. Towards the west, is the city swimming pool about 800 m away. The marked trail number 401 (Sunny coast of Count Hüterott) can also be found here, and on the same route is the transversal Umag - Pula, which passes at a distance of 700 m.

For outdoor activities, it is best to use the protected Zlatni rt Park Forest, through which the afore-mentioned trail runs, with several bicycle trails, and there is also a climbing area within this location. Should you need longer running sections, please use trail number 401 (Sunny Coast of Count Hüterott, 31.9 km).
