

# Zajedno za bolji svijet

TOGETHER FOR A BETTER WORLD

## HR

Dragi gosti, mi u Maistri i hotelu Astarea dar neobično lijepe i raznolikošću bogate prirode koja nas okružuje ne uzimamo olako – svoju ulogu vidimo i u njezinu očuvanju.

Hotel Astarea ponosno nosi prestižnu oznaku EU Ecolabel i znak „Prijatelj okoliša“, što potvrđuje našu trajnu predanost zaštiti okoliša i održivom poslovanju. Ova se oznaka dodjeljuje objektima koji ispunjavaju stroge ekološke kriterije, a naš hotel aktivno provodi mjere za smanjenje svog utjecaja na okoliš, među kojima su:

- optimizirano upravljanje okolišem i otpadom,
- smanjenje potrošnje energije i vode, emisija CO<sub>2</sub> pri prijevozu te otpada od hrane,
- promicanje korištenja obnovljivih izvora energije,
- smanjenje ugljičnog otiska, očuvanje dragocjenih resursa i poticanje biološke raznolikosti.

Primjenom najboljih tržišnih praksi obavezali smo se poštivati najviše standarde u pogledu očuvanja okoliša. Odsjedanjem u hotelu certificiranom oznakom EU Ecolabel, koji primjenjuje visoke ekološke standarde, i vi kao naši gosti doprinosite očuvanju okoliša i promičete ekološku odgovornost društva.

Pozivamo vas da nam pomognete na putu očuvanja okoliša odgovornim ponašanjem:

- gašenjem svjetla tijekom dana.
- klima uređaj u sobi podešen je na 22 stupnja, uz mogućnost regulacije u sobi od +/- 2 stupnja. Prilikom otvaranja prozora, klima uređaj se automatski isključuje za maksimalnu uštedu energije. Čak i mala prilagodba može dovesti do značajnih ušteda energije bez utjecaja na vašu udobnost.
- štedite vodu jer svaka kap čini razliku. Zatvaranjem slavine pri umivanju i pranju zuba možete uštedjeti i do 10 litara vode – to je količina vode dovoljna za tri dana.

## GB

Dear guests, At Maistra and Hotel Astarea, we cherish the uniquely beautiful and diverse nature that surrounds us and recognise our responsibility to preserve it.

Hotel Astarea proudly holds the prestigious EU Ecolabel and the “Friend of the Environment” label, confirming our ongoing commitment to environmental protection and sustainable operations. This certification is exclusively given to establishments that meet strict ecological criteria, and our hotel actively takes steps to reduce its environmental impact by:

- optimizing environmental and waste management,
- reducing energy and water consumption, CO<sub>2</sub> emissions from transportation, and food waste,
- promoting the use of renewable energy,
- reducing our carbon footprint, conserving valuable resources, and encouraging biodiversity.

By implementing best market practices, we are committed to upholding the highest standards of environmental protection. By staying at a hotel certified with the EU Ecolabel, which adheres to high environmental standards, you, as our guests, also contribute to environmental preservation and promote ecological responsibility within society.

Help us in our efforts to safeguard the environment by practising responsible behaviour:

- Turn off the lights during the day.
- The room’s air conditioning is set to 22°C, with adjustable temperature control of ±2°C within the room. The air conditioning automatically turns off when windows are opened to maximize energy efficiency. Making even a slight adjustment can lead to considerable energy savings without compromising your comfort level.
- Save water, as every drop makes a difference.

- smanjite učestalost mijenjanja posteljine i ručnika jer učestalim pranjem trošimo vodu i zagađujemo okoliš sredstvima za pranje i čišćenje.

- ne upotrebljavajte WC školjku za odlaganje smeća

- odgovorno odlažite otpad u odgovarajuću ambalažu za recikliranje.

- odgovorno se odnosite i prema hrani i uzmite samo onoliko koliko je potrebno za obrok. Smanjenje porcija najjednostavniji je način za borbu protiv bacanja hrane.

- koristite održive oblike prijevoza i radije posegnite za javnim brodskim ili autobusnim prijevozom pri planiranju posjeta Dubrovniku.

- preuzmite Maistra aplikaciju i potražite sve informacije o hotelu i okruženju kao i ponudi doživljaja na području destinacije Dubrovnik. Podržite lokalnu zajednicu kupnjom lokalnih i autentičnih proizvoda i doživljaja.

Na našim internetskim stranicama možete pronaći informacije o Politici održivosti koja se primjenjuje na razini hotelske kompanije Maistra.

Pomognite nam da zajedno sačuvamo ljepotu prirode koja nas okružuje.

By turning off the tap while washing and brushing your teeth, you can conserve up to 10 litres of water – enough for three days.

- Reduce how often you change bed linen and towels, as frequent washing wastes water and contributes to environmental pollution caused by cleaning products.

- Do not throw general waste into the toilet.

- Use the proper recycling bins to dispose of waste responsibly.

- Be responsible with food by taking only as much as you will actually eat. Reducing portion sizes is the simplest approach to reducing food waste.

- Choose sustainable transport options and consider using public boats or buses when planning a visit to Dubrovnik.

- Download the Maistra app to access more information about the hotel, its surroundings, and local experiences in the Dubrovnik area. Support local communities by purchasing locally-made and authentic products and experiences.

Visit our website for more information on our Sustainability Policy, which is implemented across Maistra d.d.

Help us protect and preserve the natural beauty that surrounds us.
