

BURLINGTON BIOCENTER

DESIGNED AND PERMITTED FOR LAB USE

LAB READY, NEW CONSTRUCTION

Burlington BioCenter is an efficient, fully customizable 109,500 square foot lab-ready facility in Greater Boston's leading suburban life science cluster. Burlington has been named a Platinum Rated BioReady Community by the Massachusetts Biotechnology Council.

A dynamic light infused two-story lobby leads to four stories of LEED Certified core and shell ready state-of-the-art R&D lab space for today's biotech companies of all sizes and research needs.

Tenants will benefit from Burlington BioCenter's flexible configuration ideal for a variety of layouts, inter-connecting stairways, floor-to-ceiling windows, high performance lab infrastructure, and green features. All perfect for attracting and retaining top talent.

With its beautiful, welcoming landscaping, extensive open and covered parking, direct access to Route 128, and Burlington's over 5 million sf of world class restaurants and retail within easy walking distance, Burlington BioCenter is an unparalleled life science experience. Designed and creatively built for your company by The Gutierrez Company.

BIO/PHARMA PROGRAM CAPABILITIES

Process Development
