

MARY TV STUDIO

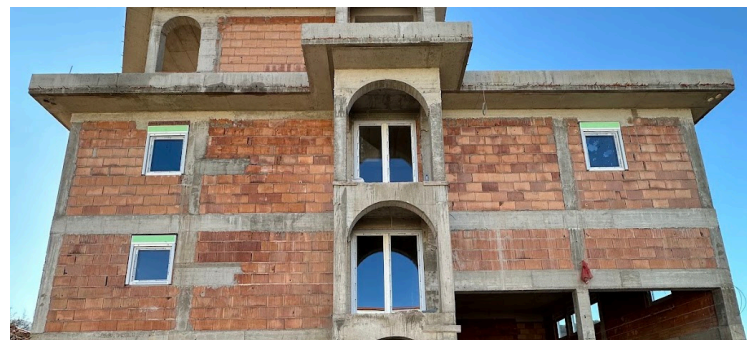

CONSTRUCTION UPDATE - JANUARY 2025

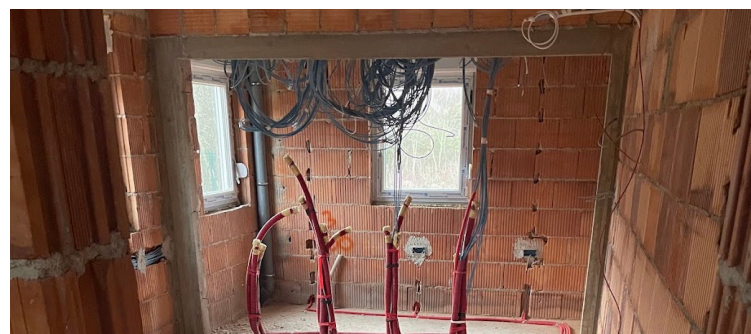

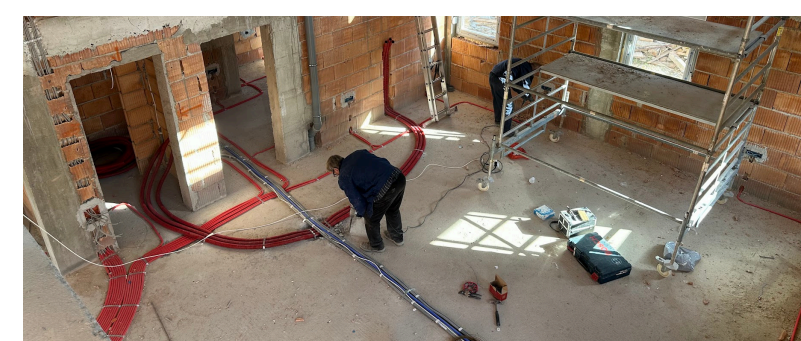

Exciting things are happening at the construction site of Mary TV's new Television Studio! We are coming closer to the final stages of construction, and we can't wait to show you the progress that has been made!

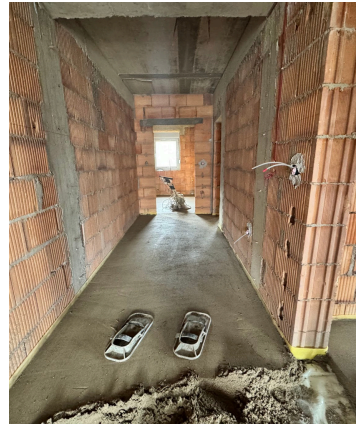

The roof being sealed with weatherproofing materials in preparation for the final layer of cement tiles.

Windows and doors have been installed throughout.

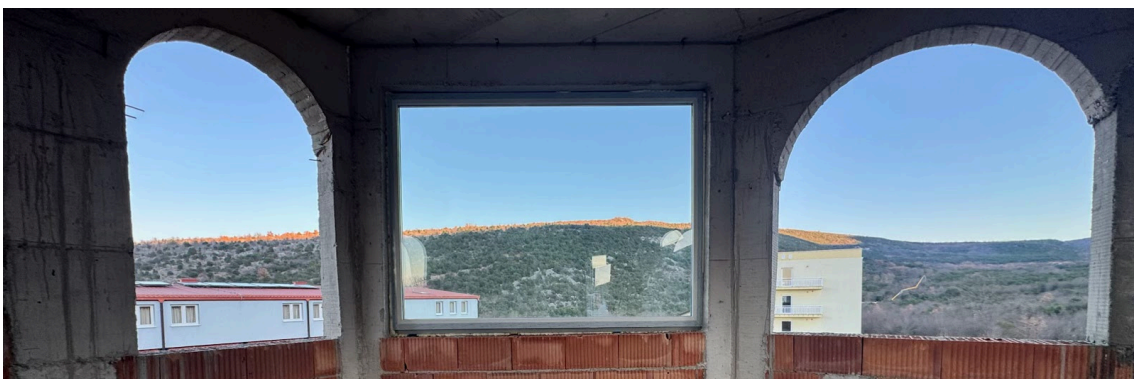

Conduits have been run throughout the building.

The floors have been sealed.

The elevator shaft being installed.

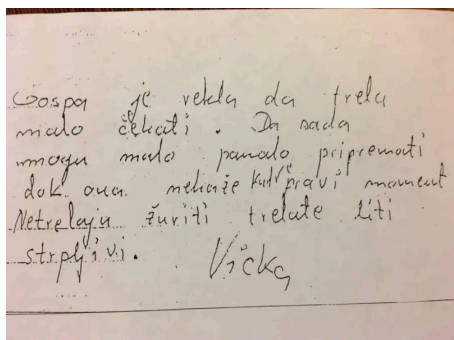

Mary TV's
Internet TV channel broadcasts 24/7

The view of Apparition Hill where the Permanent Sign, promised by God, will be left.

What's next?

- Plastering of all the interior walls
- The roof will be completed with special concrete tiles for weather proofing
- The façade will be applied to the exterior of the building

Vicka, one of the visionaries in Medjugorje, wrote the note after Our Lady spoke with her during an apparition in Medjugorje in April, 1999, about Mary TV's plan to build a television facility in Medjugorje.

Vicka wrote to Denis Nolan: "Our Lady says that the plan is good – but you need to wait a little. Now you can get prepared little by little, until Our Lady tells when the right moment is. You don't need to hurry, make haste, but to be patient."

When Our Lady said this to Vicka, the technical genius in Medjugorje that she had her eyes upon, who would begin Mary TV's live streaming from Medjugorje, was seven years old, Today Josip Zubac is the Technical Director/Livestream Engineer for IBM in the US while working with Mary TV's technical team in Medjugorje.
