- ✓ Good for delicate skin
- ✓ Extremely hygienic
- ✓ Practical on the go
- ✓ Ideal solution for washing without water and soap
- ✓ Can be heated for extra comfort

Product Description

ABENA's Wet Wash Glove has a pleasant, cleansing and moisturizing effect, and is a very good alternative to the traditional bath with soap and water. The glove should be seen as a 4-in-1 cloth with a front and back. With your hand inside the glove, you have good control over both sides of the glove. When you have finished washing, the wash glove can be turned without having to touch the unclean side.

The glove is incredibly soft and comfortable against the skin, but it is also made of a strong material that makes the wash glove impermeable to liquid, impurities, and bacteria. The wash glove is very hygienic. The product can be heated, which helps to make the washing experience more pleasant and comfortable. Extensive tests by Radboud University in the Netherlands show that the use of our Wet Wash Glove improves the condition of one's skin over time. And if one solely considers efficiency and time-saving tools, the study also shows that you can save up to 11 minutes by washing with a Wet Wash Glove compared to traditional washing with soap and water.
