

THE MOST SUSTAINABLE CHOICE ON THE MARKET

RECYCLED MATERIALS

After a year of development, we now offer dispensers made from recycled materials—part of our commitment to lowering environmental impact. We keep refining our processes to help build a greener future.

ORGANIC PRODUCTS

All our menstrual products are made from 100% organic cotton—tested, certified, and eco-friendly. You get safe, high-performance protection without compromising the planet.

LOCAL PRODUCTION

Locally developed and produced in Sweden. With full control over our supply chain and a dispenser that needs no batteries or maintenance, we keep environmental impact to a minimum.

CIRCULAR BUSINESS MODEL

Our circular rental model lets us collect, refurbish, and reuse dispensers—cutting waste while maintaining top quality, again and again. Sustainability is built into our business.
