CHEESE REPLICAS & STORE DEVELOPMENT

These stylish and practical presentation materials, such as replicas, allow you create an attractive in-store presentation in no time. A good presentation increases visibility and inspiration, which leads to more sales. Also great as decoration in homes, museums, market stalls and elsewhere.

Since 1896

BOSKA creates fun, cool, and clever Deli Counter Tools, and we believe that quality = sustainability. Our goal is to design products that are 100% timeless and will last a lifetime. It all started in Holland, near Gouda, when blacksmith Willem Bos created his first cheese tools for local farmers. Since then, it has been our family tradition to create fun and clever cheese tools. Whether cutting, slicing, splitting, or packing, BOSKA's professional tools make food cool, increase sales, and reduce waste.

Fourth generation owner of BOSKA,
