

ALL-NEW MAZDA MX-30 FIRST EDITION

ALL-ELECTRIC MAZDA

INTRODUCING MAZDA'S FIRST EVER ALL-ELECTRIC VEHICLE

The all-new Mazda MX-30 has been designed with Mazda's human-centric philosophy whilst making full use of the benefits of electric drive technology. The Mazda MX-30 is a one of a kind SUV. The evolved Kodo design can be seen in all details and features such as the freestyle doors or the floating centre console, while the pure and intuitive driving experience stimulates your senses and uplifts your mood.

EVOLUTION OF KODO DESIGN

Mazda's first all-electric vehicle is designed to be both contemporary and stylish, an evolution of Kodo: Soul of Motion which expresses Mazda's human-centric approach by combining elegance with functionality. The open-feeling cabin is complimented with the freestyle doors, which open from the centre outwards letting the outside in.

A UNIQUE DRIVING EXPERIENCE

Mazda want our customers to simply enjoy each and every drive when they step inside a Mazda vehicle. The all-new Mazda MX-30 embodies that with e-Skyactiv Technology and a lightweight battery. Mazda's brand new electrification technology which has been designed to keep the feeling of car and driver as one alive, or as we call it Jinba Ittai.

CHARGING THE ALL-NEW MAZDA MX-30

The all-new Mazda MX-30 is equipped with a 35.5kWh battery, which is ideal for your daily driving needs and delivers a feeling of confidence that you can get to wherever you need to go. Its driving range is approximately 124 miles, while charging time is around 30 to 40 minutes up to 80% with a 50kW rapid charger, so you never have to worry about your urban commuting and other daily driving needs.

A PLACE OF CALM

Inside the all-new Mazda MX-30 you will experience the highest levels of comfort. By using a range of exquisitely crafted eco-friendly materials, the interior is an inviting space that invigorates you each time you get behind the wheel. Mazda have used sustainable materials in certain areas of the cabin, for example the centre console features environmentally-sourced cork. The result is an interior which makes you feel warm and welcome.

ALL-NEW MAZDA MX-30 FIRST EDITION HIGHLIGHTS

7-INCH COLOUR TOUCH-SCREEN DISPLAY:

In addition to the 8.8-inch centre colour entertainment display which sits within the dashboard, Mazda have introduced a 7-inch colour touch-screen display positioned in front of the floating console.

This device serves two functions;

- 1) An intuitive touch operated climate control screen
- 2) An interactive device where the welcome graphic changes depending on the date, time of day and outside temperature. Giving you a more personal welcome as you enter the vehicle.

FLOATING CENTRE CONSOLE:

A unique design, with well thought-out functionality. By designing the console based on human characteristics, Mazda have ensured that the centre console functionality helps the driver focus on the road ahead, is user friendly and delivers comfort. The gear shift lever and Multimedia Commander control have been placed towards the front of the console for optimum driver comfort and usability.

FREESTYLE DOORS:

These doors are designed so that they open from the centre outwards. Meaning passengers can open and close both the front and rear doors with ease and without changing position.

ALL-NEW MAZDA MX-30 FIRST EDITION PRICING

e-Skyactiv Technology
