

YOU'RE

INVITED

FactoryTalk® Optix™ Advanced Workshop

OCTOBER 7, 2026

9AM - 1PM

SAN ANTONIO BRANCH

6413 Tri County Parkway
Schertz, TX 78154

This workshop is for users who have a working knowledge of Rockwell Automation's FactoryTalk® Optix™ HMI software. Move beyond building simple HMI screens and objects to confidently using data operations and edge device capabilities. In this session, our experts will cover data logging, OPC UA, MQTT, reusable graphic objects, collaboration and NetLogic. Attendees are asked to bring laptops (if available). All software required for the workshop will be provided.
