Terminations

Twist-Lock® Receptacles with Screwless Terminations

Hubbell's innovative Twist-Lock® Edge Series receptacles with screwless terminations are the fastest devices to terminate on the market.

Get the Twist-Lock® Edge

Edge on Speed

Decrease your installation time by over 80%, technicians can complete the installation completely by hand without a torque driver or wrench

Edge on Safety

Consistent reliable connection
No exposed metal on the receptacle

Edge on Durability

Wires stay tight for the long term, regardless of vibration, temperature cycling or strand relaxation

Edge on Reliability

Same great quality you have come to expect from Hubbell

Twist-Lock® Receptacles with Screwless Terminations

Features

- Strong spring continues to apply pressure as strands relax
- No exposed metal on receptacles, allowing more devices to be installed closer together
- No torque screwdrivers required for wiring

Labor Savings

Easy as: 1, 2, 3.

Twist-Lock® Single Receptacles

Description	Amps	125 Volts	250 Volts
Spring termination locking receptacles	20A	HBL2310ST	HBL2320ST
	30A	HBL2610ST	HBL2620ST

Note: With this new termination method, NEC code 110.14(D) "Terminal connection torque" for requiring the use of a torque driver to secure the terminations is no longer applicable.

Note: Terminations can be unwired by simply moving the plunger upwards to the open position.
