

# Finally, a better way to save on compressed air

## Quickly find compressed air, gas and vacuum leak—the invisible energy thief

Did you know that compressed air can account for 40 % of wasted electricity?\* Locating leaks in compressed air, gas and vacuum systems has been time-consuming and tedious—until now.

With the NEW Fluke ii900 Sonic Industrial Imager your maintenance team can quickly pinpoint the location of compressed air, gas and vacuum leaks in a matter of minutes.

**FLUKE**®

How much could you save if you could see leaks?
