

Because OSHA isn't going anywhere

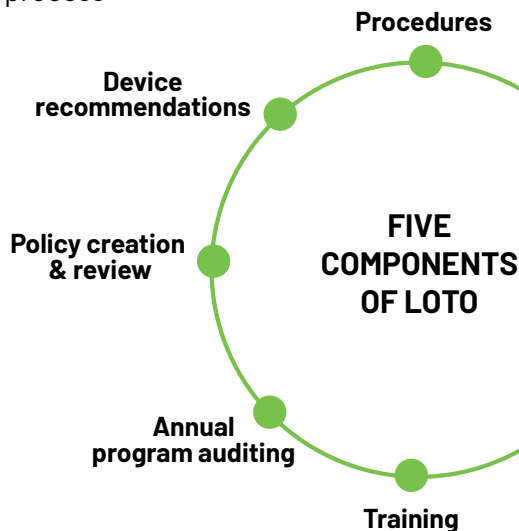

Protect your workforce and assets with **Lockout/Tagout** solutions customized for your facility.

ASK YOURSELF

- What safety procedures are currently in place? Do they include images of your machinery and corresponding tags?
- Who is in charge of your lockout/tagout (LOTO) procedures?
- Is your workforce trained?
- What is your existing safety policy?
- What would you change about your current program?

WE HAVE THE EXPERIENCE TO HELP

Work with experienced Rockwell Automation Authorized Service Provider Service Technicians who will lead your company through all five components of the lockout/tagout process:

Benefits

Value that can be measured with a **high return on your investment**

Work with engineers who have **industry-leading expertise**, specializing in LOTO program implementation

A compliant, safe and efficient LOTO solution with automation systems that work in tandem with our services

MAXIMIZE COMPLIANCE, IMPROVE SAFETY

Lockout/tagout package

The lockout/tagout package is a custom modern hazardous energy control program consisting of customized LOTO procedures, complete with the essential elements for compliance with OSHA standard 29 CFR 1910.147.

- Creation of LOTO procedure documents
- LOTO device and hardware list and an out-of-reach tags list
- Installation of LOTO procedure documents and standard tags
- Digital files of procedures, templates and other information relevant to the hazardous energy control program
- LOTO plant assessment
- LOTO procedure review
- Training Services
- Annual audit checklists
