

YOU'RE

INVITED!

FACTORYTALK® OPTIX™ SEMINAR

9am - 2pm

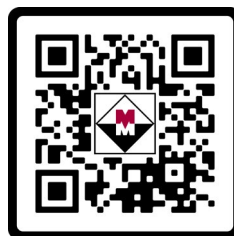

Breakfast and Lunch Provided

**May 15, June 11, June 12,
July 16, July 17, August 13**
Madison Heights, MI

May 16, August 15
Ann Arbor, MI

In an increasingly data-reliant world, you need a multi-faceted solution to successfully extend your HMI to Enterprise applications. FactoryTalk Optix, Rockwell Automation's latest HMI Platform, uses a wide variety of database and live data connections, cloud tools, and C# scripting to provide a flexible design architecture in creating applications for a plant-wide installation. We invite you to join us at our next seminar, learn from our experts, and see for yourself the benefits of enhanced functionality in industrial automation.
