Build knowledge and expertise

Rockwell Automation's Learning+ training subscriptions provide a combination of self-paced e-learning and in-class collaboration with instructors, labs and additional training content, all in a virtual environment.

Rockwell Automation's courses include fundamental and product-specific topics delivered directly to your plant floor or location of your choice. Each learning module contains activities, software simulations and demonstration videos to help reinforce learning concepts.

Virtual classroom sessions include modularized virtual lectures, lab experience demonstrations, simulations and demonstration videos. Office hours are available for small group coaching to enhance learning concepts.

More capabilities and more content. Live and on-demand Genius Webinars are featured monthly, and content is continuously being developed. Assessment tools help baseline your knowledge and e-learning modules are available in multiple languages.

Flexible options for on-demand employee training:

| 90-DAY ACCESS | SINGLE USER | SINGLE USER ENHANCED | CRAFT SKILLS | EDUCATIONAL |
|---|---|--|---|--|
| 90-day access for a single course and access to Virtual Instructor-Led Training classes occurring during access period.
