# Build knowledge and expertise

Rockwell Automation's Learning+ training subscriptions provide a combination of self-paced e-learning and in-class collaboration with instructors, labs and additional training content, all in a virtual environment.

Rockwell Automation's courses include fundamental and product-specific topics delivered directly to your plant floor or location of your choice. Each learning module contains activities, software simulations and demonstration videos to help reinforce learning concepts.

**Virtual classroom sessions include** modularized virtual lectures, lab experience demonstrations, simulations and demonstration videos. Office hours are available for small group coaching to enhance learning concepts.

**More capabilities and more content.** Live and on-demand Genius Webinars are featured monthly, and content is continuously being developed. Assessment tools help baseline your knowledge and e-learning modules are available in multiple languages.
