# MOTOR CONTROL BOOTCAMP

**8:00am - 1:00pm**

**August 25, 2025**  
**Charleston, SC**

8888 University Blvd  
North Charleston, SC 29406

**August 26, 2025**  
**Savannah, GA**

210 Technology Circle  
Savannah, GA 31407

Join us for this seminar to learn all about installing, maintaining and troubleshooting PWM drives in a manufacturing environment. Experts and automation specialists from McNaughton-McKay and Rockwell Automation® will lead you through hands-on equipment demos, answer questions and suggest best practices (including how to troubleshoot common fault codes). All attendees will receive a certificate of course completion for PDHs, a discount on their next drive purchase, door prizes and lunch. Seats are limited—register today!
