

YOU'RE

INVITED!

SHORT-CIRCUIT CURRENT RATING **TRAINING**

Presented by Eaton Bussmann & McNaughton-McKay

8:00am - 12:00pm

Complimentary lunch will be provided

September 23, 2025
Madison Heights, MI

1357 East Lincoln Ave.
Madison Heights, MI 48071

Join us for an upcoming training where electrical safety experts from Eaton Bussmann and McNaughton-McKay will explore short-circuit current rating (SCCR) for industrial control panels and machinery. Attendees will learn best practices for UL industrial control panel design and proven principles for NEC®-based circuit and overcurrent protection. Don't miss this opportunity to build your strategy for increasing panel short-circuit current ratings; register today!
