SMART-C X-RAY IMAGING SYSTEM

The world's first battery-powered, completely wireless, hyper-portable, mini C-arm providing unparalleled digital fluoroscopic imaging capabilities. This C-arm can be used in almost any setting.

Key Features

1) Portable and Lightweight

At only 16 lbs., the Smart-C offers true portability.

2) Battery-powered, and Cordless

Each rechargeable C-arm battery lasts up to 8 hours.

3) Superior Image Quality

High-definition fluoroscopic imaging.

4) Small Footprint Conserves Space

Allows for use directly on the surgical table/arm board.

5) Independent Articulating Arm

Position on the front or side to quickly acquire images.

6) Modular System

Create a custom configuration for your needs.

**THE FLEXIBILITY TO PERFORM IN SURGERY,
CLINICS, OR THE FIELD. THE SMART-C HAS IT ALL.**

Clinics / Diagnostic Imaging

Sports Medicine

Hospital / Surgery Centers

Why Choose Med One?

Med One Group is one of the largest independent medical equipment leasing and rental companies in the healthcare industry. We offer custom equipment solutions for healthcare providers to improve patient care.

ACQUISITION OPTIONS

Deferred Payment Plan

Allows the customer to receive the equipment while deferring the first payment for up to 12 months. Following the deferral period, the customer may pay a balloon payment or begin paying monthly payments over a specific term.

Operating Lease

The customer makes low payments for an established term; then, equipment can either be purchased for fair market value, rented again, or returned with no further obligation.

Equity Rental

Simply issue a renewable purchase order and the customer receives new equipment that can be rented on a month-to-month basis. After the initial term, the customer may purchase with 50% of the rental paid going toward the purchase price.

Capital Lease OR Rent To Own

Simple financing plan, like buying a car. Typical terms are 24-60 months with ownership at the end of the term.

0% INTEREST PAYMENTS AVAILABLE

* All Programs are completely customizable and can be structured around your reimbursement schedule.

Experience the Power of Portability

“ Real Customer Feedback ”

The Smart-C provides higher quality imaging than the competition. For our plastics and hand surgeons, this is critical as they work in smaller joints and with finer bones. This has been an ideal machine for our busy outpatient providers who see upwards of 30 patients a day and need quick access to quality images in order to keep their clinic moving.
