

MED ONE IS AN AUTHORIZED PROVIDER OF **BD ALARIS™ INFUSION PRODUCTS**

**MEDONEGROUP.COM**

# BD ALARIS™ SYSTEM SYRINGE MODULE

Potential adverse drug events can occur up to eight times more often in NICU patients than in adults. BD Alaris™ Syringe module with Guardrails™ Suite MX software adds a layer of safety when even the best dedication, training and vigilance are not enough to prevent errors.

## INCREASED SAFETY FOR SYRINGE INFUSIONS

- Supports 1-60 ml syringes. Compatible with other manufacturers' syringes and IV lines.
- Can support your IV best practices down to 0.01 mL/hr and ensures accuracy to +/- 2%
- Features customizable Guardrails™ Suite MX software limits that double check the dose, duration, rate, and concentration to help support your clinical best practices
- Exclusively provides a real-time numeric readout of actual in-line pressure in increments of 1 mmHg
- Offers DEHP-free dedicated and non-dedicated sets
