WHAT TO DO WITH YOUR NEW FOAM BRICK

Beverage Barge

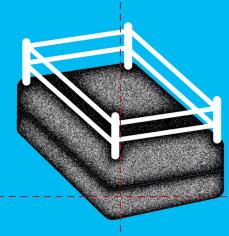

Igloo Patch

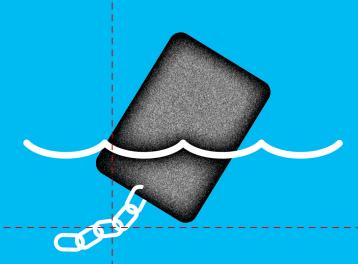

Vertical Optimization Device

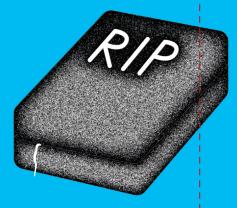

Goth Loofah

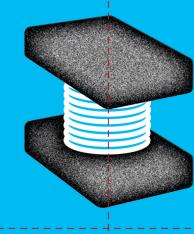

Hamster Wrestling Ring

Horrible Boat Anchor

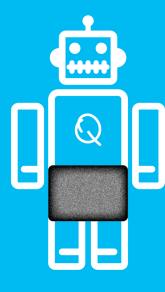

Pet Coffin

Tortilla Warmer

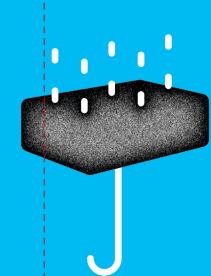

New Friend

Robot Jockstrap

Ninja Dartboard

Emergency Umbrella

The foam brick you are holding is the end result of an indecisive creative director and two pushed deadlines. In a perfect world, you would be holding a custom-molded foam enclosure with a high-tech, heat-treated texture that mimics Ohm's sleek aesthetic. Basically, it was supposed to look really freaking cool. Instead, you got this weird foam brick. But in the interest of looking at the bright side and saving the world, please consider the above uses to give your weird foam brick a second life.

PART #: R-INS-OHMM-XUS STOCK: 157gsm C2S, Matte UV **FLAT DIMS :** 332 x 525 mm

_____ CUT ---- SCORE

OHM portable speaker + wireless charging dock

Ordinary people with extraordinary imaginations submit ideas to Quirky every day, then we collaborate with our online community to make the best of those ideas a reality. When a product is sold, we share a cut of the revenue with all those who had an impact.

HOW QUIRKY WORKS

- ① Submit your idea 2 Help us decide
- 3 Influence and earn
- 4 We make it real
- (5) The world prospers
- Submit your product idea to quirky.com

While doing research on which portable speaker to buy, Maria found herself

underwhelmed by the options. This busy stay-at-home-mom challenged herself to invent something better... and now she and her family take their tunes to go with Ohm.

It all started with

María's concept Submitted to Quirky in May '10

bring María's idea to life.

And now you have Ohm!

USING OHM

- To turn on/off: press and hold power button.
- To toggle play/pause: press play/pause button. To adjust volume: press +/- button. (16 volume levels)
- To operate speakerphone:
- press play/pause button to answer an incoming call.
- press and hold play/pause button to reject an incoming call or end a call.
- press play/pause button while on a call to toggle mute/unmute. • Ohm will make a sound when the battery
- reaches 25% charge and 10% charge states. · Ohm will automatically turn off if the battery becomes too hot during charge or if the battery reaches a critical low.
- Ohm's USB charging output will be reduced from 2.1 A to 1 A if all charging ports are in use at once.
