HARMONY

Reuse of waste and zero discharge

Less particle emission

Reduction of CO2 emissions into the atmosphere

Waste minimization in productive process

Committed to environment

Sustainability & environment

In HARMONY, we manufacture ceramic tile collections in order to create stunning new living spaces, able to envelop people in their amazing beauty, but we also create spaces that take care of the environment. Future is now and in HARMONY we are aware of the need of producing ecological and recycled products that promote sustainability and help to reduce environmental impact.

All the products produced by Peronda Group have a high commitment to the planet:

1. SUSTAINABLE ECONOMY

Every product HARMONY is manufactured according to the **CIRCULAR ECONOMY** production process, in detail we reuse wastewater derived from manufacturing as well as waste from atomized process. Furthermore, we use recycled raw material in our ceramic tiles. One distinguishing feature of the company is its ongoing investment into the company itself, using state-of-the-art technologies to boost the efficiency of its production process and hence reduction of consumption of raw materials and fuel. Outcome is a process conspicuous for its high energy efficiency, with continuous savings on energy consumption per square meter of produced tiles, optimizing, as well, energy consumption and the clays used as raw materials.

- Every **product reference** in PERONDA GROUP contains up to **56% of recycled material**.
- **We reuse the 100% of wastewater** coming from the production process. More than 18.000.000 liters are recycled yearly.
- **We reuse the 100% of wasted raw material** during the production process. More than 9.000.000 Kg of wasted material is reused in a year.

2. REDUCTION ATMOSPHERIC EMISSIONS

Reduction in CO2 atmospheric emissions to the high energy efficiency of the production process and the continuous performance of our air purification system.

3. ENERGY EFFICIENCY

- Installation of high efficiency heat recovery systems in order to **diminish thermal demand** and CO2 emission.

- Installation of **LED lamps** which represents a saving of electric energy consumption of 250.000 kWh a year.
- Installation of pilot plant of **solar panels** to diminish electric consumption.
- Reduction of CO2 emission by driving 100% **electric forklifts** during the whole production line.

4. WASTE MANAGEMENT

Waste management means minimization of all environmental impacts caused by production process. In the same way as all production processes, a series of waste materials is generated during the tile manufacturing process. These are managed by authorized waste management agencies, which reduce associated environmental impacts.

- **100% recycling** of plastic, carton and strapping wasting during production.
- Ceramic tiles have a service life of more than 50 years and this fact reduces solid waste during all this time.
- Joining to ECOEMBES – Nonprofitmaking organization that cares for the environment through recycling and the eco-design of packaging (plastic packaging, cans and cartons (yellow container) and for paper and cardboard packaging (blue container)) in Spain.

5. SUSTAINABLE TECHNOLOGIES

- Use of clean technologies based on water inks in the ceramic tiles digital decoration. In this way, we **avoid solvent waste**.
- Every product **packing is made of 100% recycled carton**. Yearly we place in market more than 600.000 Kg of recycled paper.
- **Reduction of 95% of consumption of plastic** thanks to replacement of plastic packaging into recycled carton in every parcel.

Comprometidos con el medio ambiente

Sostenibilidad y medioambiente

En HARMONY creamos nuevos espacios y los llenamos de vida, para rodear a las personas y sorprenderlas, teniendo en cuenta el cuidado del medio ambiente. El futuro es hoy y somos conscientes de la necesidad de producir mediante procesos más sostenibles, obteniendo productos que ayuden a reducir el impacto medioambiental.

Gracias a ello, nuestros procesos de producción presentan un alto compromiso con el planeta, caracterizándose por:

1. ECONOMÍA SOSTENIBLE

Todos los productos de la marca HARMONY están fabricados siguiendo un modelo de producción basado en la **ECONOMÍA CIRCULAR**, en concreto en la reutilización de las aguas residuales del proceso, reutilización de los residuos de atomizado y en el uso de material reciclado en el conformado de las baldosas cerámicas. Esta metodología de fabricación está en línea con la filosofía sostenible seguida por la empresa en todas sus actividades, basada en la minimización del consumo de recursos naturales y de desechos generados, priorizando el uso de materiales reciclados con el fin de minimizar el impacto ambiental.

-Todas las **referencias fabricadas** en PERONDA GROUP contienen hasta un **56% de material reciclado**, logrando obtener productos más sostenibles y respetuosos con el medio que nos rodea.

-**Reutilización del 100% de las aguas residuales** procedentes del proceso productivo. Más de 18.000.000 litros de agua anuales reciclados.

-**Reutilización del 100% del material crudo sobrante** del proceso de producción. Más de 9.000.000 kg de material sobrante del proceso de producción reutilizado.

2. REDUCCIÓN EMISIONES ATMOSFÉRICAS

Uno de los objetivos principales de la empresa es la minimización de la emisión de partículas a la atmósfera mediante el funcionamiento en continuo de sistemas de depuración de aire, contribuyendo de forma positiva a la lucha contra la contaminación atmosférica.

3. EFICIENCIA ENERGÉTICA

-Instalación de recuperadores de calor y quemadores de alta eficiencia para **disminuir el consumo térmico** y las emisiones de CO2.

-Instalación de **luminarias** tipo **LED** que han permitido un ahorro energético de hasta 250.000 kWh/año en consumo de energía eléctrica.

-Instalación de **placas fotovoltaicas** que disminuyen el consumo de energía eléctrica y fomentan el uso de energía solar ahorrando una emisión de 99 toneladas de CO2.

-Reducción de las emisiones de CO2 debido a la conducción de **carretillas elevadoras 100% eléctricas** en toda la cadena de producción.

4. GESTIÓN DE RESIDUOS

Como todo proceso de producción, la fabricación de baldosas cerámicas genera una serie de residuos, que son gestionados mediante gestores autorizados, reduciéndose de este modo los impactos medioambientales asociados.

-**100% de reciclado** del plástico, cartón y flejes sobrantes del proceso de producción.

-Las baldosas cerámicas tienen una vida útil de 50 años lo que se traduce en una falta de generación de residuos sólidos durante todo ese tiempo.

-Adhesión a **ECOEMBES** – entidad sin ánimo de lucro encargada de la recuperación de envases de cartón en toda España.

5. PROCESOS SOSTENIBLES

-Utilización de una tecnología limpia basada en el uso de tintas en base agua para la decoración digital de las baldosas cerámicas, **evitando la generación de residuos de disolvente** y haciendo el proceso de decoración digital más sostenible.

-Todos nuestros productos son envasados en **embalajes de cartón 100% reciclados**. Anualmente ponemos al mercado un total de más de 600.000 Kg de cartón reciclado.

-**Reducción en un 95% del consumo de plástico** debido a la sustitución de embalajes de plástico por embalajes de cartón reciclado en la paquetería comercial.

Quality certifications

Certificados de calidad

ISO 9001

Quality management system in compliance with the UNE-EN ISO 9001 standard. System based on continuous improvement of processes, products and service in the company, the objective of which is the complete satisfaction of all the involved parties.

Sistema de gestión de la calidad basado en la norma internacional ISO 9001. Certifica la mejora continua de todos los procesos, productos y servicios de la organización con el objetivo de aumentar la satisfacción de todas nuestras partes interesadas.

CE

This declares that our products comply with the stipulations of the CE marking, under which a product must be assessed before it is put on sale and comply with the applicable health, safety and environmental requirements.

Declara la conformidad de nuestros productos con los requisitos establecidos en el mercado CE que establece que un producto es evaluado antes de ser introducido en el mercado y que cumple con los requisitos de seguridad, salud y protección medioambiental aplicables.

CCC

The CCC certificate is compulsory for products exported to China. It guarantees that products with a low water absorption rate (E<0.5%) comply with the safety and quality requirements.

El Certificado CCC es un sistema de certificación obligatorio para las exportaciones a China que garantiza que los productos con baja absorción de agua (E<0.5%) cumplen con los requisitos de seguridad y calidad establecidos.

Sustainability certifications

Certificados de sostenibilidad

ISO 14001

Environment management system in compliance with the UNE-EN ISO 14001 standard. Certifying system for application requirements which guarantee minimization of environmental impact, according to our commitment to sustainability.

Sistema de gestión medioambiental basado en la norma internacional ISO 14001. Sistema que certifica el cumplimiento de todos los requisitos legales de aplicación y garantiza la minimización de los impactos ambientales asociados a los procesos de la organización en línea con nuestro compromiso de sostenibilidad.

GLOBALEPD

An Environmental Product Declaration in compliance with the UNE-EN ISO 14025 standard, which provides environmental info based on the lifecycle of our products.

Es una Declaración Ambiental de Producto de conformidad con la Norma UNE-EN ISO 14025, que proporciona información medioambiental basada en el ciclo de vida de nuestros productos.

LEED AND BREEAM

Sustainable building certification systems developed by US Green Building (LEED) and Building Research Establishment (BREEAM), which promote the "ecologic" buildings, using environmental-friendly constructional practices.

Sistemas de certificación de edificios "ecológicos". Promueven la construcción de edificios sostenibles en base a prácticas de construcción más respetuosas con el medioambiente. Todas las baldosas cerámicas contribuyen a una edificación/construcción más sostenible de los edificios y a la obtención de puntos LEED y BREEAM. Con ello se consigue un aumento de la calidad de vida y el bienestar de los habitantes de este planeta mediante el logro en las viviendas y edificios de ambientes interiores más saludables.

VOLATILE ORGANIC COMPOUNDS (VOC)

An environmental label for the French market, which provides information on the VOC content (volatile organic compounds). It declares that our products are rated A+, contributing to a healthy environmentally-friendly habitat.

Etiqueta medioambiental para el mercado francés que informa sobre el contenido en COV's (Compuestos Orgánicos Volátiles). Declara que nuestros productos son de tipo A+, contribuyendo a un hábitat sano y respetuoso con el medioambiente.

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (les faibles émissions) à C (fortes émissions).

Craft trends

HARMONY is synonymous with innovation, design appeal and “fresh inspiration”. Its Craft tile collections have been created with passion and attention to detail by our designers, placing special value on uniqueness and slight irregularities as a sign of authenticity, delicacy and sensitivity.

The Craft collections all fit in with the latest trends in interior design, without relinquishing their artisanal essence. Their shapes, textures and colours appeal to the emotions, triggering a myriad of sensations. By combining these three variables, a well-balanced, solid design formula has been achieved, able to complement and enhance different trends.

HARMONY regards design appeal and combinability as being important sources of added value in all its products. Its collections stand out for their wide variety of colours and textures in models of differing formats, perfect for creating truly inspirational settings.

To help inspire you, here is a brief outline of some key aspects of the latest international trends, together with a colour chart of all our products—an indispensable tool in the design of living spaces.

HARMONY es sinónimo de diseño y vanguardia, es “fresh inspiration”. Las colecciones cerámicas Craft son creadas con pasión por nuestros diseñadores centrándose en cada pequeño detalle, apreciando lo único, lo irregular. Con el objetivo de transmitir sensibilidad, delicadeza y autenticidad.

Las colecciones Craft responden a las últimas tendencias del interiorismo, sin olvidar su esencia. Despiertan emociones y sensaciones a través de sus formas, texturas y colores. Cuando se combinan todos estos elementos se crea un código de estilo sólido y equilibrado que fortalece las diferentes tendencias.

HARMONY entiende el diseño y la combinabilidad como fuentes de valor añadido en todos los productos, ofreciendo una gran variedad de colores y texturas en diferentes formatos para crear espacios inspiradores.

Con el fin de de facilitar esa inspiración proporcionamos un pequeño informe de tendencias propio, recopilando los puntos clave de las nuevas corrientes globales; junto a una carta de color de todos nuestros productos. Seguro que se convertirán en una herramienta de trabajo esencial para crear espacios.

Well-being design

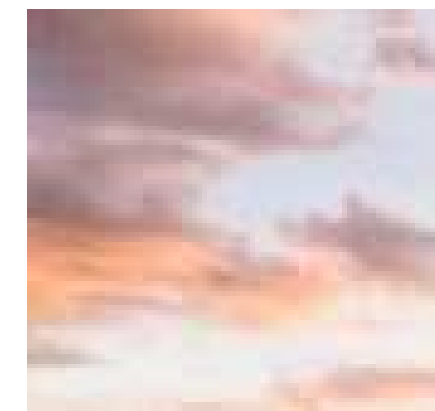

Holistic design is an all-round approach to settings. Instead of just focusing on the visual, aesthetic and functional aspects of living spaces, it also takes into account their mental, physical and emotional impact on users. In other words, it also encompasses the sensory aspect of design, seeking to create settings with a positive impact, able to make us feel in tune with everything around us.

It takes into consideration all the factors that are involved in nurturing feelings of tranquillity, inspiration, elation or restfulness through all five senses: warm colours; soft lighting; silky textures; fragrant aromas; sinuous shapes with a fluid, dynamic sense of movement; or organic curvy ones with warm, comforting associations, all synonymous with a sense of harmony and wellbeing.

El diseño holístico ve el espacio como un todo, no solo se centra en la parte visual, estética y funcional de los espacios; sino también cómo los lugares afectan mental, física y emocionalmente a las personas que los habitan, refiriéndose a un diseño sensorial. Un espacio que nos haga sentir bien y conectados con lo que nos rodea.

Se trata del conjunto de elementos que evocan y despiertan el sentimiento de tranquilidad, inspiración, emoción o descanso a través de los cinco sentidos; como los colores cálidos, la iluminación tenue, las texturas suaves, los aromas... Formas sinuosas que aportan fluidez, dinamismo y movimiento. Curvas orgánicas evocadoras de confort y calidez, cuyo objetivo es despertar la sensación de armonía y bienestar.

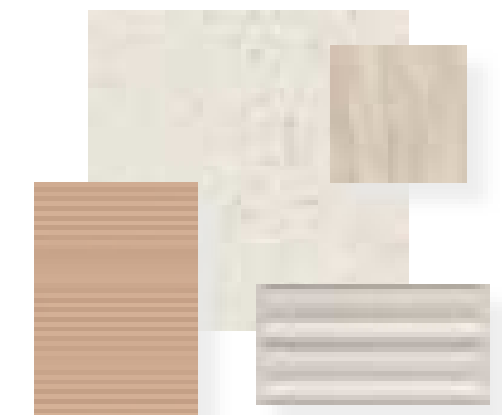

- richly textured raw materials
- soothing colours
- pleasant, comforting sinuous shapes
- materias primas ricas en texturas
- colores calmados
- formas sinuosas, acogedoras y amables

Vitamin look

Designs can give off positive, energizing vibes when precedence is given to colour through bright, vibrant, dynamic, vitamin colours, able to lift your spirits in an upbeat way. This is a look that oozes with optimism, transforming everyday spaces into extraordinary ones.

Functionality is all important in this simple approach to design, based on a bold, vibrant colour spectrum and mix of rich shades.

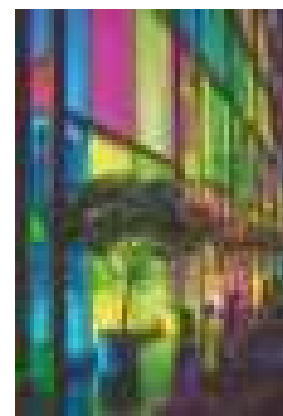

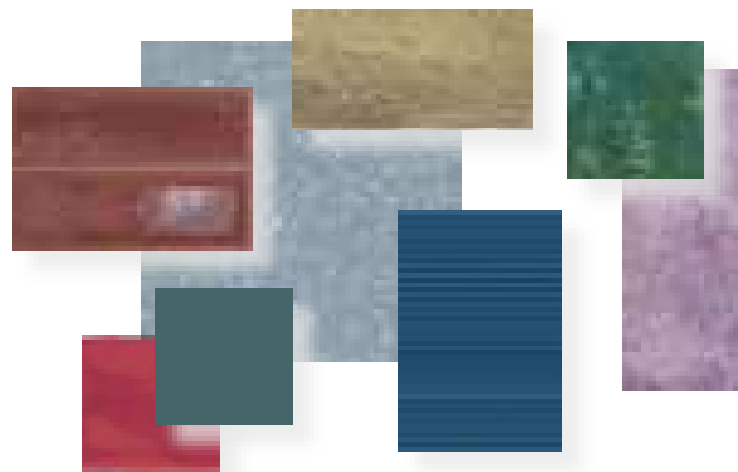

El diseño puede estimular vibraciones positivas y llenas de energía siendo el color el protagonista, a través de tonos intensos, vibrantes, enérgicos y vitamínicos, que generan positivismo y diversión. Es puro optimismo, convierte lo corriente en extraordinario.

Se maximiza la funcionalidad de los espacios, apostando por un diseño sencillo, dejando el protagonismo a una paleta de color atrevida y enérgica que combina tonos de gran carga cromática.

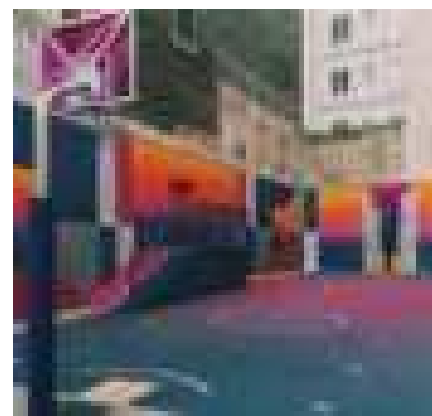

→ vibrant, luminous surfaces
→ flat, saturated or intense colours
→ geometrical shapes

→ superficies vibrantes, luminosas
→ colores planos, saturados e intensos

Natural soul

Designs with soul, with history, with clear reminiscences of the past, going back to the roots, to the wisdom and careful craftsmanship of an artisan. With this look, priority is given to handcrafted aesthetics and tiny flaws, thanks to their charm, originality and authenticity. Traditional techniques are extolled, with products elevated to the ranks of luxury items.

Value is placed on attention to detail, fine-quality materials, natural plant fibres, environmental care, sustainability, and earthy shades and matt finishes filled with luminosity and natural beauty.

Diseño con alma, historia, una clara reminiscencia al pasado volviendo a las raíces, al punto de partida, a la sabiduría y a las manos de un artista, conocedor del oficio. Se ensalza los trabajos manuales, las imperfecciones, dotándolas de piezas únicas, deseables y auténticas. Convirtiendo las técnicas tradicionales en el máximo exponente hasta categorizarlo en lujo.

Se apuesta por los detalles cuidados, materiales nobles, fibras de origen natural y vegetal. Compromiso con el medio ambiente y la sostenibilidad, acercándonos a texturas terrosas, mates, llenas de luz y esencia natural.

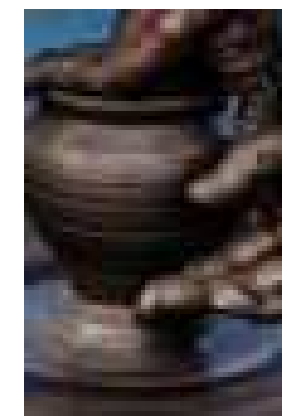

→ colours inspired by nature
→ a tribute to the past through sustainable, organic, vintage looks.

→ colores derivados de la naturaleza
→ oda al pasado ensalzando una estética vintage, sostenible y orgánica

Terrazzo tiles were first developed in Venice in the 15th century by mixing marble chips with cement. EVOQUE recaptures the beauty of this technique, using cutting-edge technology to achieve a unique finish. Thanks to the uniformity of its different colours, a note of sobriety has been ensured, without relinquishing the decorative appeal for which the HARMONY range is famous.

The collection's tiny fragments of glossy white marble vary in colour against the matt cement background, with a slight unevenness that lends the tiles depth and natural beauty, thanks to the use of **SHAPED TECH** technology. The tiles stand out for their surprising smoothness while also boasting all the necessary technical properties for use on floors. With the collection's 90x90 cm format in a choice of 6 different colours, EVOQUE is an all-rounder, equally suitable for walls or floors.

El terrazo es una técnica que tiene su origen en Venecia y se remonta al siglo XV. Consiste en la mezcla de fragmentos de mármol y cemento. EVOQUE recupera esta técnica aplicando los más avanzados recursos tecnológicos para darle un acabado único. La uniformidad en los colores le confiere sobriedad al conjunto sin renunciar al carácter decorativo inherente a la marca HARMONY, con sus diferentes propuestas de color.

Sobre un cementado mate y variación de tonalidades, los microfragmentos de mármol blanco en acabado brillo le confiere profundidad y naturalidad al producto gracias a su tecnología **SHAPED TECH**. Un producto de características técnicas propias del pavimento pero que sorprende por su suavidad, supone una excelente opción, ya sea para su uso en pavimento como en revestimiento, por su formato 90x90 cm y sus 6 tonalidades diferentes.

SENSA pays decorative tribute to micro-terrazzo tiles, originally developed in Venice, in a 90x90 format. A collection suitable for use on walls and floors, it features 6 models in a choice of white, green, blue, grey and silver.

This is the first collection by HARMONY to have been made with **SHAPED TECH** technology, with a digitally created relief texture that matches the printed design to perfection. The resulting tiles are some of the most natural looking in the tile sector.

HARMONY presenta con SENSA su particular homenaje decorativo al micro terrazo, original de Venecia. En un formato 90x90 nos muestra una colección apta para pavimento y revestimiento en 6 tonalidades diferentes.

La primera colección de HARMONY realizada con tecnología **SHAPED TECH**, donde los relieves son creados con tecnología digital perfectamente coordinada con la impresión gráfica para generar las piezas más naturales realizadas en el sector.

CUBAN

Porcelain Tile

A tile collection that is modernist essence, with plant and geometrical designs evocative of the early 20th century. CUBAN brings the beauty of cement tiles to 22.3x22.3 cm porcelain tiles. Its models, with their different patterns, come in a choice of two different colours: one in differing intensities of grey and the other with a stronger contrast between black and white.

Esencia modernista a través de gráficas geométricas y ornamentales que nos trasladan al principio del siglo XX. La colección CUBAN rescata la tendencia hidráulica para renovarla en material porcelánico de formato 22,3x22,3 cm. Las referencias, de diferentes motivos gráficos, se presentan en dos gamas cromáticas diferentes, una que combina diferentes intensidades de gris y otra con una mayor contraposición que combina el color blanco con el negro.

Collection Inspired by traditional cement tiles, takes its name from the capital of the island of Cuba, where these tiles were traditionally used in many buildings. HAVANA comes in a 22.3x22.3 cm format in different shades of white, grey, blue and green, with geometrical shapes or other motifs that can be combined to create continuous patterns. A new vision of cement tiles, with a myriad of subtle nuances.

Colección de inspiración hidráulica toma su nombre de la capital cubana donde esta tipología de producto decora tradicionalmente muchos de sus interiores. HAVANA, en formato 22,3x22,3 cm, trabaja la gama cromática de blancos, grises, azules y verdes destonificados en formas geométricas u ornamentales que permiten realizar composiciones en continuidad. Una nueva visión de la tendencia hidráulica con todo lujo de detalles.

MESTRAL

Porcelain Tile

22,3x22,3 cm
8.7x8.7"

blue

The Mediterranean stands out for its light and shades of blue, found in its clear skies, in the calm waters of its sea, on the doors and windows of its whitewashed houses and, needless to say, in its handcrafted pottery.

MESTRAL is a collection inspired by the ancient tradition of hand-painted tiles, with a selection of delicate decorative motifs typically found on Majolica pottery. The collection comes in a 22.3x22.3 cm format in a total of 6 models.

Hablar de mediterráneo es hablar de luz y de color azul: en los cielos despejados, en el mar que aguarda en calma, en las puertas y ventanas que adornan sus casas encaladas y por supuesto, en la cerámica artesanal.

MESTRAL es una colección que recoge la tradición centenaria de baldosas pintadas a mano con la delicada selección de motivos ornamentales de la cerámica mayórica. Con un formato 22,3x22,3 cm ofrece un total de 6 referencias

PATTERNS unites a handcrafted appearance with geometrics and colour. Its harmonious mix of colours and geometric motifs lend it personality and decorative charm.

Linear brushstrokes of colour on a cement background add a distinctive, colourful, handcrafted touch within a general design conspicuous for its ordered regularity. PATTERNS comes in two easily combinable colour spectrums in a 22.3x22.3 cm format.

La geometría, el color y la artesanía, se dan cita en la colección PATTERNS. Una mezcla armónica de colores, así como el recurso de las geometrías, otorgan a la colección una apariencia decorativa y personal.

Sobre un fondo de apariencia cementosa, apreciamos los trazos pincelados de las líneas que aportan color y un toque artesanal y diferenciador dentro de un conjunto regular y ordenado. Destacan dos gamas cromáticas de fácil combinabilidad presentadas en formato 22,3x22,3 cm.

LEGACY pays tribute to the traditional artisanal technique of overlapping reactive glazes, used in the 20th century to create exclusive, unique looking ceramics of different colours and intensities. The collection's 15x15 and 6x25 cm tiles, in a choice of Blue, Green, Grey, White and Snow, stand out for their shine, volume and sense of depth, making it one of the most refreshing, innovative wall tile collections.

Un homenaje a la antigua técnica de esmaltes reactivos superpuestos empleada durante el siglo XX. En formatos 15x15 y 6x25 cm. Artesanal y tradicional, su técnica genera piezas únicas y exclusivas de diferentes tonalidades, colores e intensidades. El brillo, el volumen y la sensación de profundidad de la pieza convierten a LEGACY en una de las colecciones más rompedoras para revestimientos con sus tonalidades Green, Blue, Grey, White y Snow.

Inspired by traditional North-African ceramics, CASABLANCA stands out for its charming hand-crafted appearance. Thanks to its uneven edges and Mediterranean-style décors, this is a collection conspicuous for its warmth. Available in a 12.5x12.5cm format, CASABLANCA's plain white field tile and 10 different décors can be combined in a multitude of different ways. Suitable for use on both walls and floors, its slightly aged appearance is conceived to blend in harmoniously with the rest of the home.

CASABLANCA se inspira en la cerámica tradicional característica del Norte de África. Se presenta con un aspecto totalmente artesanal, donde sus bordes irregulares junto con los decorados con esencia mediterránea dan un juego de calidez excepcional. Presentada en formato 12,5X12,5 cm e infinitas combinaciones gracias a sus 10 decorados diferentes acompañados de una base lisa, dan a CASABLANCA un toque de cerámica envejecida donde el uso tanto en pavimento como revestimiento ofrece la posibilidad de conseguir un espacio en perfecta armonía con el resto del hogar.

RUBIK is a 12.3x12.3cm porcelain tile collection with a strong emphasis on colour. The distinguishing hallmark of these straight-edged, smooth matt tiles is their shade variation, affording all kinds of design potential. The 9 sophisticated colours that make up the collection are rich in subtle nuances, lending a distinctive personality. This can be further enhanced by the different combinations of tile joints that RUBIK allows for.

RUBIK nos propone una colección donde el color es el protagonista. Con un amplio abanico de posibilidades, presentamos una superficie lisa en acabado mate y bordes rectos, donde la variación de tonos marca la diferencia. Además, los 9 colores de los que se compone son ricos en matices, sofisticados y capaces de dotar de personalidad a cualquier ambiente. Las grandes alternativas de decoración se amplían con las diferentes combinaciones de juntas. RUBIK es un porcelánico de formato 12,3x12,3 cm.

These porcelain tiles are inspired by traditional ones with Arab influences, like those found in Morocco or Southern Spain. The collection's handcrafted appearance evokes the skilled brushstrokes of a craftsman, with their movement and changing intensity of colour, in a design with a mix of organic and ornamental motifs.

Available in a new 12.3x12.3 cm porcelain tile format, Tanger is conspicuous for its slightly uneven surface and irregular sides, further enhanced by the collection's different colours.

Producto porcelánico que evoca a la influencia árabe en la cerámica tradicional, característica del sur de España y Marruecos. Su diseño artesanal nos traslada al trazo a pincel, generando cierta direccionalidad y variación de color. Se trata de una mezcla de patrones orgánicos y ornamentales.

La colección presenta un formato nuevo para la firma: 12,3x12,3 cm porcelánico. De acabado irregular tanto en la superficie como en el contorno y de gran combinación gracias a sus diferentes tonalidades.

SUNSET evokes typical Mediterranean twilight evenings, with the blue sea, the gold sand, the white foam of the sea's waves and the characteristic greens of the trees.

The porcelain tile collection features a total of 6 models in a 6x25cm format, in a choice of green, mustard, petrol to sage, sand and white, perfect for use both indoors and out.

SUNSET nos traslada a los atardeceres típicos mediterráneos: los azules del mar, el dorado de la arena, el blanco de la espuma de las olas o los verdes característicos de sus árboles.

Colección de aspecto artesanal que destaca por la gran variedad de gráficas, efecto vidriado y volumen irregular de sus piezas generado por la granilla brillo. Con tonalidades como green, mustard, petrol, sage, sand y white se presenta en porcelánico con un formato de 6x25 cm.

Various generations of artists have dedicated their talents to painting ceramics. This is a deep-rooted, traditional craft that has continued through to today. AQUA pays tribute to all those artists in recognition of their contributions to the ceramic industry and the distinctive hallmark that they create.

AQUA's floral motifs on a white background conjure up all the beauty of traditional Mediterranean hand-painted ceramics, rounded off by a series of field tiles that complement the decorative ones to perfection, opening up broad-ranging decorative possibilities. The white, brown, blue, green and anthracite colours of this 6x24.6cm porcelain wall tile collection can all be inter-combined.

Varias generaciones de artistas han volcado su talento en la elaboración de piezas cerámicas pintadas a mano. Un arte muy arraigado que perdura a día de hoy. AQUA es un homenaje a todos estos artistas y el reconocimiento a su impulso y diferenciación de la industria cerámica.

Un conjunto de piezas con motivos florales sobre fondo blanco que reproducen la técnica del pincelado manual característico en nuestro entorno. Se completa la oferta de la colección con las piezas de base que se complementan a la perfección con las piezas decorativas, dando así múltiples posibilidades decorativas. Un revestimiento porcelánico de 6x24,6cm que podemos combinar entre sus tonalidades white, brown, blue, green y anthracita.

GALA introduces a new 33.3x100 format to the HARMONY range on a 7.5mm-thick tile body. It also takes advantage of a new decorative technique that allows for the creation of endless different bas-relief patterns, conceived to contrast with the surface finish.

GALA comes in a silky matt surface finish, with geometrical bas-relief patterns in a distinctive glossy shine. GALA's trend-setting choice of colours can easily be matched with other collections by HARMONY.

Con la colección GALA incorporamos un nuevo formato a la marca, 33,3x100 cm con un espesor de solo 7,5 mm. Además, implementamos una innovadora técnica de aplicación de esmalte. Que permite crear infinidad de patrones de bajo relieve generando un diseño de contraste con el acabado superficial.

El acabado de GALA combina la textura mate sedosa superficial con el patrón geométrico en bajo relieve de acabado brillo, que realza el diseño de la pieza. Destaca su paleta de color en tendencia que complementa el resto de colecciones de la marca.

This is a collection with a handcrafted appearance, inspired by the Mediterranean. Its 20x40 cm tiles stand out for the depth of their surface reliefs and their rich density of colour in areas where the glaze seems to have dripped down and concentrated. Available in a choice of six different colours—Bordeaux, Blue, Green, Sand, White and Grey—the wall tiles each emulate six smaller mosaic tiles, with a matt background combined with a transparent glossy finish. Manufactured using **DEEP TECH** and **LAYER TECH** technology, Levels stands out for its depth, textures and surface finishes. The tiles can be laid either horizontally or vertically, infusing living spaces with a unique distinction.

De inspiración mediterránea gracias a su apariencia tradicional y con acabados artesanales, LEVELS nos presenta en un formato 20x40 cm una colección que destaca por la profundidad de sus relieves y su efecto de acumulación de color como si de un efecto de gravedad se tratase. Compuesta por 6 colores diferentes: Bordeaux, Blue, Green, Sand, White y Grey, esta colección de revestimiento está dividida en 6 teselas con un fondo mate combinado con un acabado brillante y vidriado. Producida con las tecnologías **DEEP TECH** y **LAYER TECH** nos ofrece una combinación de profundidades, texturas y acabados superficiales para generar espacios únicos gracias a su opción de colocación, tanto en vertical como en horizontal.

MOVES is a 20x40cm wall tile collection conspicuous for its grooved, relief-textured design. Thanks to the use of **DEEP TECH** technology, reliefs with a hitherto unimaginable depth have been achieved. **LAYER TECH** technology has also been used to ensure a mix of textures with wide-ranging effects. The collection comes in a choice of different colours, including several warm ones.

MOVES destaca por su diseño acanalado y por sus relieves. Se trata de un revestimiento en formato 20x40 cm, que gracias a su tecnología **DEEP TECH** nos permite alcanzar unos relieves hasta ahora imposibles de realizar. Así mismo, la tecnología **LAYER TECH** otorga a la pieza una mezcla de texturas generando efectos muy variados. Se presenta en diferentes colores, destacando los cálidos.

Inspired by the traditional ceramics of North Africa and Southern Spain, NADOR stands out for its wide variety of colours, with a predominance of soft shades. Its subtle design infuses living spaces with restful elegance. The transparency of Nador's glazes brings out the beauty of its different shades, further enhanced by the handcrafted appeal of its slightly uneven surface.

Available in a 13.2x13.2 cm format, this is a wall tile collection conceived to help create one-of-a-kind living spaces.

Colección inspirada en la cerámica tradicional del sur de España y norte de África, NADOR destaca por su extensa variedad de color, donde predominan los tonos suaves. Su gráfica sutil genera elegancia y suavidad en los espacios, aflorando distintas tonalidades gracias a la transparencia de sus esmaltes y ofreciendo un acabado artesanal con irregularidades en la superficie.

Su formato 13,2x13,2 cm nos ofrece una colección idónea de revestimiento para generar espacios únicos.

DYROY is inspired by the northern lights. A collection in the characteristic colours of nature that can be admired in northern Norway, adapted to an artisanal-look collection of ceramic tiles. The range of tones and patterns featured in this collection recreate the shifting lights and colours of the Arctic nights. Available in 10x10 and 6.5x20 cm formats, it allows for multiple layouts.

Inspirada en las auroras boreales nace DYROY. Una colección que adopta los colores que nos ofrece la naturaleza en el norte de Noruega, adaptados a una colección cerámica de apariencia artesanal. Los diferentes tonos y la variedad gráfica de la colección, generan el movimiento de luz y color que nos ofrece la noche del ártico. Disponible en formato 10x10 y 6,5x20 cm, permite múltiples opciones de colocación.

SAHN is a large and colourful collection reminiscent of the handcrafted ceramic tiles that were a traditional feature of Arab-style interior courtyards. A wide range of patterns and colour combinations are the hallmarks of this collection. Available in nine colours with a matt finish, it comes in a choice of two formats: 10x10 and 6.5x20 cm. Great for mixing and matching with our RIAD collection.

SAHN, una colección amplia y colorista que nos invita a recuperar el trabajo de cerámica artesanal tan característico de los patios interiores de las construcciones de influencia Árabe. Variedad gráfica y mezcla de diferentes tonalidades son una de las principales características de esta colección. Presentada en nueve colores en acabado mate, está disponible en dos formatos diferentes 10x10 y 6,5x20 cm. Combinable con nuestra colección RIAD.

BARI is inspired by traditional tile-making techniques, with tiles in a 6x24.6 format whose uneven, slightly concave surface evokes all the charm of hand-crafted ones. Its shine, rich patterns and traditional local colours conjure up the shores of the Mediterranean Sea. The collection is rounded off by a décor in a choice of 6 colours, whose embossed surface, in subtly varying hues, fits in harmoniously with the rest of the collection, adding to its decorative appeal.

Colección que recoge y reproduce técnicas de fabricación de la cerámica tradicional. Una base con superficie irregular y ligeramente cóncava evoca el acabado artesanal del producto en un formato de 6x24,6. El brillo de las piezas, su riqueza gráfica, así como los colores propios de la zona, nos transportan a orillas del Mediterráneo. La colección se completa con una pieza decorativa, con un relieve degradado que le confiere al conjunto un mayor valor decorativo manteniendo la armonía en 6 tonalidades diferentes.

At HARMONY we strive to keep at the forefront, both in technology and in applications of new products and services conceived to impress customers and to guarantee high added value.

En HARMONY trabajamos para estar a la vanguardia en tecnología y aplicaciones de nuevos productos y servicios con un alto valor añadido que consigan sorprender y satisfacer a nuestros clientes.

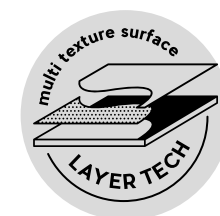

SHAPED

Real precision · Precisión real

Reliefs are created via digital technology perfectly coordinated with graphic printing to generate the most natural pieces ever seen in ceramic.

Relieves creados de manera digital perfectamente coordinados con la impresión gráfica para generar las piezas más naturales nunca vistas en cerámica.

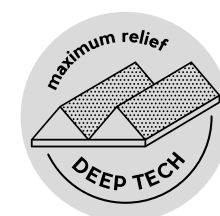

LAYER TECH

Multi texture surface · Múltiples texturas

Allows to create different surface layers, generating varying effects on the same tile. This leads to hitherto unimaginable spectacular finishes on the tiles.

Permite crear texturas en diferentes capas de la superficie generando efectos variados en una misma pieza. Acabados espectaculares hasta ahora imposibles de conseguir en cerámica.

DEEP TECH

Extraordinary relief · Relieve extraordinario.

Relief surfaces can be created with an extraordinary depth, with reliefs as deep as 8 mm. This new technology opens up new broad-ranging decorative potential.

Permite realizar relieves con un nivel de profundidad extraordinario, llegando hasta los 8 mm de relieve. Esta nueva tecnología abre un universo de posibilidades decorativas.

Cleaning

Limpieza

INSTANT REMOVAL OF FRESH GROUT RESIDUES

Once tiles have been grouted and given an initial clean with a moist sponge, it is possible to leave the surface absolutely spotless, with no grout haze.

By using INSTANT REMOVER (for cement-based grout) or EPOXY PRO (for epoxy grout) by FILA, pristine surfaces that comply with the UNE 138002 standard can be achieved, the same day that they are grouted.

Both INSTANT solutions are fast and foam-free, they don't need rinsing, and they don't discolour the joints.

They are very simple to use. Once the tiles have been grouted and given an initial clean with a moist sponge, spray INSTANT REMOVER (or EXPOXY PRO in the case of epoxy joints) onto the tiled surface and leave it to act for 1 to 2 minutes. Then wipe the surface with a moist sponge or soft cloth.

CLEANING NEWLY-LAID TILED SURFACES

After walls or floors have been tiled, it is important to give the surface a thorough clean to remove grout residues and building dirt. A slightly acidic product, such as FILA DETERDEK, should be used which does not release toxic fumes, harm users, or damage the tiles or tile joints. In the case of tiles laid with an epoxy or resinous grout, the surface should be cleaned with a detergent specially for epoxy materials, such as FILA CR10.

EVERYDAY CARE

Ordinary Cleaning:

To clean the floor well, use a neutral detergent with a strong cleaning power, like FILA CLEANER, which is able to remove layers of organic dirt without leaving a cloudy film.

Extraordinary Cleaning:

To remove strongly incrustated layers of organic dirt, FILA PS87 cleaner should be used to give the surface a thorough clean.

Dilute one part of the product in up to 10 parts of water, depending on how dirty the surface is, and leave it to act for 5 minutes. Then rub the patches of dirt with a brush, remove any dirt residues (preferably with a vacuum cleaner for liquids), and rinse the surface with plenty of water.

There are many other types of incrustated dirt. The following table shows the right product by FILA for each kind of dirt:

TYPE OF INCRUSTED DIRT	PRODUCT BY FILA
Light organic everyday dirt	CLEANER
Heavy organic dirt

LIMPIEZA INSTANTANEA DE RESIDUOS FRESCOS DE COLOCACIÓN

Una vez rejuntado y justo después de la primera limpieza con esponja húmeda, es posible dejar el material ya completamente limpio, evitando el posterior "empañado".

Los productos de la marca FILA INSTANT REMOVER (para junta cementosa) y EPOXY PRO (para junta epoxi) permiten una colocación completa, impecable y conforme a la normativa UNE 138002 en el mismo día del rejuntado.

Las soluciones INSTANT son rápidas, no crean espuma, no necesitan aclarado y no decoloran las juntas.

El procedimiento a seguir es sencillo, una vez rejuntado el material y realizable la primera limpieza con esponja húmeda, se pulveriza INSTANT REMOVER (EXPOXI PRO en junta epoxi) sobre la superficie cerámica, y se deja actuar durante 1- 2 minutos. Después de este tiempo, se pasa una esponja humedecida o paño suave.

LIMPIEZA DE FINAL DE OBRA

Después de la colocación es fundamental realizar una buena limpieza con el fin de eliminar residuos de junta y en general suciedad de la obra. Para esta operación recomendamos el empleo de un detergente de acción ligeramente ácida que no despidan humos tóxicos y respete las juntas, el material y el usuario, como FILA DETERDEK. En el caso de material colocado con junta epoxi o en base resina, se aconseja realizar la limpieza final de obra con un limpiador específico de residuos epoxi, como FILA CR10.

LIMPIEZA DE MANTENIMIENTO

Limpieza Ordinaria:

Para un buen mantenimiento del pavimento se aconseja el empleo de un detergente neutro y con alto poder limpiador como FILA CLEANER que no deja residuos ni empañados, por lo que elimina las capas de suciedad orgánica.

Limpieza Extraordinaria:

Para eliminar capas de suciedad orgánica intensa y acumulada en el tiempo, se recomienda realizar una limpieza profunda con detergente FILA PS87.

El procedimiento consiste en diluir una parte del producto en hasta 10 partes de agua, según el nivel de suciedad, y dejar actuar unos 5 minutos, frotar con cepillo, recoger residuos (ideal con un aspirador de líquidos), y aclarar con abundante agua. Existen otros muchos tipos de suciedad incrustada, en el siguiente esquema, se especifican los diferentes productos FILA recomendados, en función del tipo de suciedad a tratar.

TIPO DE SUCIEDAD INCRUSTADA	SOLUCIÓN FILA
Suciedad orgánica ligera (diaria)	CLEANER
Suciedad orgánica intensa

HARMONY

Once ceramic tiles reach the end of their useful life, they are inert waste. For their proper management, they should be given to an authorized waste management body for recycling purposes.

All colours and hues appearing in this catalogue should be considered approximate, only in view of the printing processes involved.
